

CLUBS (continued)

Band News

The members of the Mt. Gilead School, Troy School, and the West Montgomery High School Bands are selling doughnuts to raise money for uniforms and equipment. The doughnuts will sell for 60¢ a dozen and one must order a minimum of one dozen a week for 6 weeks. They will be delivered to the customer's house on Saturday morning (March 16 through April 20). These doughnuts are the famous Krispy Kreme doughnuts, and they will be made fresh the same day they are delivered. (Have you ordered your doughnuts yet?)

Future Teachers

The Future Teachers spent the last two weeks planning for Career Day which was held March 14. At a meeting held Thursday, March 7, Miss Brown, the club's sponsor, told the group what was expected of them at Career Day. She also gave them their vocation assignments. The West Montgomery chapter of the F.T.A. was responsible for the name tags and door plates. The president, Marion Dorsett, presided at the opening assembly.

3 STUDENTS TESTED

The National Merit examination was given on Tuesday, March 5. The exam began during second period and ended during the fifth period. Miss Thomas and Mrs. Winn administered the tests. The results will be made known in May.

GIRLS BUSY

The Home Economics Departments have been busy lately with laboratory classes in foods. The first-year girls have enjoyed preparing and eating breakfasts, learning to plan nutritious meals, and learning to serve at the table.

The second-year girls have enjoyed seeing a number of films on foods--especially salad-making. They have enjoyed prepar-

ing and serving a buffet luncheon. Pies and cakes are the desserts they enjoyed the most.

The third year girls are having a good time learning the essentials of home nursing. They have made equipment for raising the bed to proper heights for nursing. They have also learned the proper procedure for making and changing a bed with a patient in it. The students have experimented with the use of hot and cold compresses.
