Editorial

Our first issue of THE TWIG almost wishes that it was a whole tree in order to welcome the new girls, and faculty and to say to the old ones that we're more than glad to have you back. And we wish to welcome you all into the columns of THE TWIG—Your TWIG. For it belongs to the Student Body of Meredith, and trying to publish it without the cooperation of every member would be almost as bad as a blind man in a dark room, hunting for a black cat that wasn't there!

Elon may be able to "lick its weight in Wildcats," but it seems that they were out-weighted the other Saturday.

The school year has started like a speedometer that doesn't register right—we didn't know how fast we were going till we'd gone! As proof, we already have a week of tests behind.

To be or not to be, that is the question!—Stylish in long sleeves and a high collar, or comfortable in a summer frock!

Of course we knew that we could count on Wake Forest—but we hadn't counted quite as low as zero for Carolina!

And State is also to be congratulated. But who could expect a Spider's web to stop a Wolfpack?

Remember our talk on gossip? Well, if you have any that the student Body ought to know, do pray hand it in to THE TWIG.

As for joining a society, don't let the flip of a coin decide you. Remember that you have three more years after this.

Sidell's rules the waves just now. Have you ever seen as many bee-you-ti-ful folks?

Play tennis! There's a reason besides Instant Postum and your school-girl complexion. For instance, the number of tennis courts at New Meredith.

Already some of the State freshmen have been initiated into the process of the removal of green-ness, namely, green paint.

And in case you haven't already done so, just turn back and take a second look at the '28—Almost as thrilling as it really is, isn't it?

A last year's TWIG announced that our attitude regarding the checking proposition was too frivolous. This year's TWIG wishes to commend the Student Body on the resolutions passed regarding this problem, and to say that this past Sunday has proved that we can find our own solution.

The Quill and Quip will perhaps aid in bringing out the hidden talent among the students of Meredith as well as fill the pages of THE TWIG with better material.

For the benefit of prospective reporters to THE TWIG we wish to say that contributions should be written legibly, and on one side of the paper.

When a man with a little moustache tells you to kiss his girl for him, how should it be done? We're in that fix. Privately, it's our opinion that it should be done with a tooth brush.

Labs are an abomination under the B. S. students. Some of us feel that surely cooking and chemistry will follow us all the days of the fall, and we shall miss each football game of the season.

We agree with the Technician. It isn't a sense of Duty entirely that calls out the Seniors each Sunday morning, or the fact that the other classes have to sign up. But the point is—When?

GREATER ATHLETICS PLANNED FOR 1925-26 AT NEW MEREDITH FOUNDATION FOR BETTER ATHLETIC PROGRAM BEING LAID NOW

Plans are now being made for greater athletic activities at New Meredith than we have ever had before. We are hoping to have not only an enlargement of our present sports, but we are also planning to add others to the list. If we are to succeed in this attempt the entire student body will have to back us. This is your organization and we are counting on you to make it the most successful year that we have ever had.

At present we have four sports: basket ball, swimming, hiking and tennis. We advise you to line up at once with one of these and work hard to win distinction in that one or more.

Basket ball practice is to begin next week and each class captain is expected to arrange practice for the team with the coach. Then regular practice is to be continued until the final games when each class competes for the championship.

The tennis courts are being used some, too. However, we should like to see more of you out there. They're for you, so use them. If you don't know how to play, then get some one that knows to teach you. It isn't hard. If you think so, just try it.

Walking is already the most popular pastime. If you are not already one of the "Hikers" we are urging you to join us. The club this year is larger than ever and we are expecting a large number of the girls to win monograms. Are you going to be one of them?

In all of these sports, our aim this year is to create a spirit of friendly rivalry among the classes, and at the same time retain that united love for our Alma Mater. So if you are not lined up with any sport, come out and back up your own team and show that you're a true sport.

Has any excess, senior dignity been observed? A member of the faculty remarked that the only difference in the Seniors and the Freshmen was that the Senior skirts were a trifle more abbreviated. And we had so prided ourselves on finally achieving the peak of Seniority. Oh well—pride goeth before a fall.
