

TWIGLETS

It seems to me that the only remedy for the gal who wrote about *duckless* glands in Dr. Hoagland's psychology is a *quack doctor!*

Gwennie Kester oughta know by now that clothes make the woman. Her latest perplexity is: *What are Sophomore dresses for?* We're gonna make her carry the whole daisy chain just for that!

There's one high-minded, pure-souled, ingenious lass who props her broom and mop against the dresser on the day Miss White checks. Maybe just for a little local color—or is it atmosphere? Keep your eyes on the door-knob though your soles be two inches thick in dust!

The other day Miss Armstrong went down to Miss Rowland's room and talked a few minutes. When she went out she locked the door behind her. Upon being questioned, Miss Armstrong replied, "Well, I'll just tell you. My mind just works faster than my feet! In my mind I'd already been down at my studio, come out, and was locking my own door!"

It got conveyed to me by fair means or foul that some of our own damsels, who were spending the week-end in neighboring sticks, saw in a little general post-office-service station-hairpins-flour-and pump-handle-store a horse collar hanging on the wall. One of them squealed with surprise and cried, "Oh, look at the life-saver!" The old gray mare's coming up in the world! Maybe life ain't so futile after all.

Somebody says H. G. Wells' attitude toward society is: "Go and see what the baby's doing and tell it not to do it."

It seemed strange how many girls took church cuts last Sunday—but then when one ponders over the fact that N. C. State College was having its Spring Holidays, it was just another of those problems—without form and void!

Here's one on our friend Hitler that maybe you haven't heard. A shopkeeper, asked for Hitler herring, offered for sale ordinary herring with the brains removed.

We wonder if Dr. Mercer's quizzes justify a freshman's rendition of his name: Mercy.

Here is a good opening line for a novel on college life: "A small coupe drew up to the fraternity house and eleven passengers alighted.—*The Gull-fordian.*"

HOME EC. CONFERENCE HELD IN WINSTON-SALEM

The State Home Economics Club Conference will be held at Salem College, Winston-Salem, North Carolina, on March 29 and 30. All Home Economics Clubs of the State have been invited to send representatives to the conference, and the following will represent. Meredith's Home Economic Club: Henrietta Castlebury, president of the club, Louise Helsabeck, and Martha Ann Riley.

Meredith Represented At Athletic Meet in Greensboro

(Continued from page one)letic problems such as finance, awards, point systems, and outing clubs. Mae Marshburn served on a committee for suggestions concerning the conference and its programs.

The delegates to the conference were entertained in various ways. Thursday afternoon there was a tea in their honor. Friday afternoon they were taken sight-seeing and out eight miles to the Athletic Association Cabin, where they had tea. That evening they had a camp supper in the Y. W. C. A. cabin on campus.

Saturday night they had a banquet at the O'Henry Hotel, after which they attended a dance drama given by the Orchestis Club of W. C. U. N. C.

A Harvard professor recently ate his shirt to win a bet. He dissolved it in acid, neutralized the acid, filtered the precipitate, and spread it on bread.—*The Carolinian.*

(Continued from page one) and Astro critic.

Dorothy Dockery of Mt. Gilead, who is the new Phi president, has served on the Twig staff for two years, has held various offices in the E. S. U., and in the Athletic Association. This year she has been secretary of the Phi Society.

Norma Rose of Wadesboro has served both as managing editor and as associate editor of the Twig. She has been secretary of her class and was president this year. She was also secretary of the nominating committee this year and was one of the four Meredith students who were selected for the national student *Who's Who*.

Lucille Parker of Marion, who has been elected editor of the *Acorn*, served on that publication as circulating manager her sophomore year and as junior editor this year. She has

Senior Tea for Faculty
The senior class entertained in honor of the faculty and trustees at a tea last Wednesday afternoon in the parlors.

Stuart Weatherspoon, College Marshal, met the guests at the door where they were introduced to the receiving line, which was as follows: Elizabeth Poplin, senior class president; Mildred Moore, vice president; Louise Correll, secretary; Mamie Lou Forney, treasurer; Catherine Moseley, Student Government president; Elizabeth Lee, B. S. U. president; Mae Marshburn, Athletic Association president; Margaret Davis, Astrotekton president; Reba Parker, Phillaretian president; Cornelia Atkins, editor of the *Oak Leaves*; Inez Poe, editor of the *Twig*, and Elberta Foster, editor of the *Acorn*.

The tea table was centered with green and white spring flowers and white tapers burned on either side of the centerpiece.

Miss Janie Parker and Mrs. Laura Weatherspoon Harell poured tea. Sandwiches, cookies, and mints were served by senior home economics students.
