

**Varied Sports Program Sponsored by Athletic Association**

Sports are one of the major factors in Meredith's scheme of education and serve as an enjoyment for a large number of Meredith students. Many play at several sports while an extensive number of girls goes out for at least one sport.

The main sports which Meredith has to offer are hockey, riding, baseball, soccer, hiking, and such minor sports as bicycling, ping pong, croquet, and volley ball.

Tennis, golf, swimming, and archery are spring and fall sports while hockey is played exclusively in the fall. Basketball and soccer are winter sports while riding and hiking are done all year round.

Officers of the Athletic Association for this year are: Martha Messenger, president; Pauline Davis, vice president; Sada Louise Clark, secretary; and Betty Lyon, treasurer. Various sport managers are: Hockey, Harriet Rose; riding, Blanche Johnson; baseball, Wilba Mills; tennis, Dot Crawford; golf, Marjorie Thomas; swimming, Charlotte Wester; archery, Ruth Hutchins; baseball, Charlotte Peebles; soccer, Gerry Tuttle; hiking, Mirvine Garrett, and minor sports manager, Ruth Privott.

**CLUBS**

For nearly every department in the curriculum there is a club which is devoted to furthering the interest in that subject. The Meredith College Glee Club consists of students from all departments and is composed of twenty of the best voices in school. The International Relations Club concerns chiefly those who are taking history courses, for it undertakes a thorough study and discussion of international problems and relations of the present day. The Meredith League of Women Voters is open to students interested in becoming informed of the present condition of American government. For those especially interested in a supplement to the regular classwork of Greek and Latin and a social life and fellowship among students with similar interests there is the Helen Hull Law Classical Club which provides for these interests. For those either majoring in English or making English an elective course the Colton English Club presents a program so that phases other than those presented in class may be developed. The Home Economics Club is open to those who are taking work in the Home Economics Department and its object is to stimulate the interest in the study of Home Economics. The Barber Biology Club is restricted to those making a certain average in Biology. The object is to further interest among students in current topics and nature study. In order to bring the town girls into more contact with campus life the Town Girl's Club has been organized. With this great variety of clubs practically every one is able to find one which furthers her interest in a particular subject.

**Literary and Social Activities Promoted by Astros and Phils**

There are at Meredith two literary societies, the Philaretian and the Astro-tekton, one of which each new girl at Meredith joins after having become acquainted with the activities and members of both. There is always the keenest of competition between the two societies, and new girls are "rushed" until the date of choosing, which must be by the first Saturday in October.

The purpose of the two societies is to bring the students together in a literary and social way. The societies sponsor individuality in expression in both these fields.

Each year the Philaretian society offers the Minnie Jackson Bowling medal, and the Astrotekton Society offers the Carter-Upchurch medal for the most outstanding literary achievement of the year made by the respective societies.

In the fall of each year the two societies each present a play in competition for a banner which is awarded by judges. The Astrotekton Society won for the third successive year this fall and the banner now belongs to them permanently.
