

Clubs Sponsor Joint Meeting

At a joint meeting of the Sociology and Freeman Religion Clubs Friday night, January 14, in Phi Hall, Dr. W. F. Stinespring, professor of semetics at Duke University, reviewed the background and present situation of what we commonly term the "Palestinian problem." According to Dr. Stinespring, of course, there is no Palestinian problem—there is no Palestine—but, for the sake of convenience, we continue to use the term.

Dr. Stinespring was a member of the committee to investigate and report with recommendations on the Palestinian situation to the United Nations prior to recent settlements made. He and his committee's recommendations were not accepted.

We think that a lot of live-wires would be dead ones if it weren't for their connections.
—The Iowa State Daily.

Dad criticized the sermon, mother thought the organist made a lot of mistakes, and sister didn't like the choir's singing, but they all shut up when Willie piped up: "Still it was a pretty good show for a nickle."
—The Sherman Tattler.

MEREDITH PSYCHOLOGY STUDENTS HELP IN DIX HILL THERAPY WORK

Several Meredith College students from Dr. Dorothy G. Park's psychology classes have been receiving practical training in psychology fieldwork this semester through their volunteer work in the department of occupational therapy at the State Mental Hospital in Raleigh.

Shirley Powell, Betty Hefner, and Betty Jean Johnson, have been teaching finger-painting to some of the patients. Florence Moore has assisted in other phases of art work, while Pollyanna Langston and Martha Hooks lent their services in directing bridge-playing. Others of Dr. Park's psychology majors plan to help in the department of recreation at Dix Hill during the spring semester at Meredith.

Through their field work, Dr. Park says, students have an opportunity to put into practice some of the psychological principles they have learned and at the same time to feel that they are being of real service to others.

These and other psychology majors and the entire class in abnormal psychology under Dr. Park, head of the department of psychology and philosophy at Meredith, joined sociology classes under Miss Leslie Syron of Meredith and students of Dr. Daniel Moffie, head of the department of psychology at N. C.

State College, for a demonstration clinic at Dix Hill Monday afternoon, January 17.

Dr. Donald Carter, clinical psychologist at the State Hospital, with the assistance of Mrs. R. L. McMillan, Jr., and Miss Lib Taylor, social workers at the hospital, explained to the students the most common psychosis and presented illustrative cases. After the clinic, Dr. Carter took the Meredith students on a tour of the hospital and explained the use of electric shock and insulin therapy in mental cases.

Dear Pop:

Everything is fine at school. I'm getting lots of sleep and am studying hard. Incidentally, I'm enclosing my fraternity bill.

Your son,

Ignatz

Dear Ignatz:

Don't buy any more fraternities.

Pop

At least half the heredity-environment controversy has been settled by an LSU professor.

Says the prof: "The chances are that if your father and mother didn't have any children, you won't either."

TWO PROFESSORS

(Continued from Page One)

mas holidays. Dr. Wallace went to the American Historical Association meeting which was held in Washington, D. C., at the Mayflower Hotel, on December 28, 29, and 30. She spoke at the convention on "The Whigs and the Liberal Popes 1846-1850."

Dr. Harris attended the meeting of the Modern Language Association which was held in New York City on December 28, 29, and 30. She also attended the College English meeting which was held at that time.

Graduation exercises at the end of this semester will be held at noon on Saturday, January 29 in the Blue Parlor. The program will honor those who are candidates for degrees.

THIS COLLEGIATE WORLD

A geology prof was speaking to a group of weary students as they plodded along a dangerously narrow path in the Lake Austin area.

"Be careful here, he warned. 'It's dangerous. But if you fall, remember to look to the left. You get a wonderful view.'"

—Daily Texan.

HOW TRUE

We know
It unwise
To criticize
Our fellow-man.

Before becoming
Overbold,
Remember, Sir,
We all came
From the same
Mold.

Nevertheless,
In spite of mothers,
Some are mouldier
Than others.
