world war as long as the free powers on the trip. The Irishman had been of the world stick together. Russia wouldn't dare." These were the closing remarks of Mr. Santford Martin, who spoké in chapel on Friday, May 8.

Mr. Martin, brother of the college bursar, spoke on symbols of unity which he saw on a recent trip to Paris, London, and other points in Europe. In London he saw a little lady looking up at the statue of President Roosevelt with tears in her eyes. When he asked her if she was an American, she replied that she was not. Yet she was weeping as she looked at that remarkable statue. "To me," said Mr. Martin, 'this incident was a symbol of the unity between her country and ours." Another symbol was an Australian who had helped to support a company of North Carolina soldiers in the first World War. He remembered what the governor of North Carolina said to the governor of South Carolina. Still another symbol to Mr. Martin was an old Irish-

He had left his homeland at the age of seventeen and was going back now only to visit his family and friends. Then he was going "back home" to America. The last symbol that Mr. Martin mentioned in his talk was a magnificent book which he saw open in the Cathedral of Saint Paul. "As long as this book stays open," said Mr. Martin, "no left wing party will win the English people from the support of America and the free powers of the world.'

Mr. Martin now edits the Sunday issue of The Winston-Salem Journal of which he was full-time editor from 1916 until recently. For twenty-five years out of this period he was editor of *The Winston-Salem Sentinel*, also. Mainly for the liberal political stand he has taken in his editorials during these years, Mr. Martin has been recognized in Who's Who in America. In 1937 Mr. Barr became president of St. John's College at Annapolis, Maryland, and immediately the college became the center of a great controversy because he abolished the elective system, threw out the textbooks, and inaugurated a new curriculum based or the study of some one hundred great books from Homer to the present. This curriculum finally has become generally accepted by educators throughout the country although there is still some dispute about it.

Just as Mr. Barr believes that his plan of studies offers boys of average ability the best opportunity to enter life with disciplined minds, so does he believe that the reading of the great books is a substantial basis for adult education. Carrying out this theory, he originated the successful radio program, Invitation to Dee da Parma on Emily; and fourth
