

CONSTRUCTION OF SCIENCE BUILDING IS ANTICIPATED

Pictured above is artist's drawing of Hunter Hall.

Ground Broken For Hunter Hall This Month

Construction of the new science building, which will replace the white frame structure now in use, will be under way about the middle of February. It is expected to take 12 to 14 months for completion of construction.

The new building will be located on the north side of Joyner Hall in the same relationship to Stringfield Dorm as Joyner Hall is to Vann Dorm. Although the architecture of the science building will be similar to Joyner Hall in design, having a corresponding L-shape, the new building will be somewhat larger. This expansion in size will necessarily cause several changes in the landscape; since the end wing of the building is planned to cross the area occupied by the railroad track, the tracks and perhaps the riding ring will have to be removed.

The interior design of the new building is a great expansion over the old temporary structure, as the total cost which is just under \$445,000, excluding equipment, would imply. It will of course be furnished with new equipment throughout, although the equipment contract is to be let at a later date. The biology and home economics departments are on the first floor with the chemistry and business departments occupying the 2nd floor.

Several unique features of the building are a greenhouse for botany experiments and observations in the biology department; a reception room connected to the dining area for various exhibits and social activities in the home economics department; an outdoor terrace opening from the dining area onto the lawn; and separate labs connected to the professor's offices for private research and experiments.

Among the other interesting features is the foods lab in the home economics department, designed with individual kitchenette units, and a clothing lab with a special locker room.

On the second floor, the chemistry department has a dark room to be used in connection with various experiments. The business department will be greatly expanded in size and will possess modern business equipment and machines.

The name of the new building will be Hunter Hall in honor of Dr. Rufus Hunter, a long-time member of the board of trustees and a prominent Baptist layman. Dr. Hunter devoted much of his time to the problems of Meredith and through his will, Meredith is receiving an estimated \$140,000 now being used for construction of the building named in his memory.

Those persons having an active part in planning for the new building were the heads of the departments occupying the building, who worked closely with Mr. V. H. Belcher, business manager, and the architects, Harris & Pyne of Durham. The architects are of the same firm which drew the plans for the arts building, H. Raymond Weeks, Inc., and were successors to that firm upon the death of Mr. Weeks.

The opening of bids for contracts began January 22, with the general construction contract awarded to R. K. Stewart & Son of High Point; the electrical contract to the Howard Greene Electrical Company; the plumbing contract to the Bullock Plumbing & Heating Company, and the heating contract to the Bolton Air Conditioning & Heating Company.

Board of Trustees To Meet February 25

The regular semi-annual meeting of the Board of Trustees will be held on February 25. New members are Mr. D. J. Thurston of Wilson, Mrs. W. R. Wagoner of North Wilkesboro, Mrs. Tom Towerence of Cliffside, Rev. C. E. Parker of New Bern, Rev. Jack B. Wilder of Durham, Dr. Robert H. Gilbert of Kinston, and Mr. John M. Simms of Raleigh.

RELIGIOUS EMPHASIS WEEK BEGINS MONDAY

A full schedule of activities has been planned for the week of February 17-21, Religious Emphasis Week. On Monday through Friday mornings the chapel time will be extended. Chapel guest speakers are Dr. McLeod Bryan and Dr. Robert E. Seymour; President Campbell will conclude the week on Friday morning. Noonday meditation services will be held Monday through Thursday in the Rotunda. The leader for this service is to be Reverend Harold Cole, Baptist Student Director for the North Carolina State Convention.

Evening services will be held at 7:30 Monday through Thursday. The guest speakers will alternate in presenting the message at these services. Special emphasis is being made to attend these services as they will show the extent of interest on the part of the students.

After the services informal discussions will be held in the dormitories. Dr. Bryan will lead a group in the topic of "Ethical Frontiers"

while "Finding and Following God's Will" will be the topic of Dr. Seymour's group. Each discussion will be two nights on one side of the court and two nights on the other in order that everyone will have an equal opportunity to attend both.

Special music will be provided for both the chapel and the evening services. The chorus under the direction of Mr. Edwin Blanchard will sing for the morning service. Assisting in the music for the evening services will be Mr. Hal Shoemaker, Minister of Music and Education at Tabernacle Baptist Church of this city. Mrs. Phyllis W. Garriss will play the violin at the Monday evening service.

Throughout the week students are urged to schedule conferences with the speakers. Also contacts may be made with them through the party planned for the student body, class visitation and informal teas. Doors will be opened to new insights and growth.

OUTSTANDING LEADERS TO MAKE ADDRESSES

"In all thy ways acknowledge Him" is the theme for this year's Religious Emphasis Week. Two guest speakers have been asked to carry out this theme. Dr. G. McLeod Bryan comes from Wake Forest College where he is a member of the Department of Religion. Dr. Bryan studied at Mars Hill, Wake Forest, and Yale University. He combined a major in theology, sociology, and philosophy in order to concentrate on social ethics. He is especially interested in human relations and has done much work with international students and race relations. Dr. Bryan taught at Mars Hill, Mercer University, and Washington University before he came to Wake Forest.

Dr. Robert E. Seymour is a native of Greenwood, S. C. He received his B.A. degree from Duke, B.D. from Yale and his Ph.D. from the University of Edinburgh. He has traveled widely in Europe during his years of Scotland residence. He also made the journey overland to Jerusalem tracing itineraries of Paul. He is in great demand as a speaker for student conferences. Dr. Seymour is popular with the students at Mars Hill and may be remembered for his previous visit to Meredith.

The topics for the chapel talks are as follows: Monday, "An Adequate Faith" by Dr. Seymour; Tuesday, "Religion as Ultracy and Intiracy" by Dr. Bryan; Wednesday, "What is God Like?" by Dr. Seymour; Thursday, "Religion as Sensitivity" by Dr. Bryan; and Friday, "In All Thy Ways Acknowledge Him" by President Campbell. In this final chapel talk Dr. Campbell will sum up the week.

The evening service topics will be: Monday, "Let Man Free God" by Dr. Bryan; Tuesday, "How to Become a Christian" by Dr. Seymour; Wednesday, "Let God Free Man" by Dr. Bryan; and Thursday, "Hi-Fidelity Christians" by Dr. Seymour.

Hawaii.

Ann is a sophomore from Mt. Airy and a religion major. She is LISTEN chairman of the executive council of the B.S.U. and a counselor.

SAI Will Present Fashion Show

By LELIA DAVENPORT

Anyone who likes to look at pretty clothes — and who doesn't? — will not want to miss the S.A.I. Fashion Show to be presented in the Meredith auditorium February 28, at 8:00. Mac Joseph's is in complete charge of the clothes, which will range all the way from swim-wear to beach togs to day-dresses to evening apparel. Mr. Joseph, who has just returned from a buying trip to New York, will narrate the show as well as direct the models and the choice of fashions.

The purpose of the fashion show as defined by Peggy Bone, senior, is "To raise money for a scholarship which will be awarded to a deserving music student." In order to do this it will be necessary to charge an admission of fifty cents.

The S.A.I. is to arrange scenery in keeping with a spring theme. As the fashions are shown, members of the S.A.I., Pat Long and Peggy Bone, will provide background music, and during the intermission the Meredith Triple Trio will ren-

der several numbers to add to the enjoyment of all attending. (The public is invited — including members of the opposite sex!) Miss Beatrice Donley of the Meredith music department is in charge of co-ordinating the music for the entire presentation.

"There will be approximately forty pieces of clothing modeled — the late spring fashions," explains Lynn Corbett, chairman of the planning committee for the show. She adds that models are chosen from "every class and every hall" on the Meredith campus.

ANN ALLRED RECEIVES LISTEN APPOINTMENT

Ann Allred has been appointed missionary to Hawaii for the summer of 1958. She was chosen from candidates suggested by local B.S.U.'s from all over the state by the North Carolina Baptist Student Union. The LISTEN Fund sponsors the summer missionaries. Ann will be primarily employed in work with the Vacation Bible Schools in
