44. Santa Claus's laugh
45. Initials of our Dean of Women

# Faculty Size and Experience Grows

With a new freshmen class also come new members of the faculty. A Meredith graduate, Mrs. James Charles Woodard, returns to Meredith to teach English. Dr. Harold Elijah Littleton is a new addition to the religion department. The foreign language department greets Miss Ann Peaden and Dr. Helen Pugh Daniel. Mrs. Sonnet W. House is teaching political science and Dr. Larry Alson Whitford is a visiting professor of biology.

For Dr. John Yarbrough, head of the biology department, a year as coordinator for Cooperating Raleigh Colleges replaces his regular classroom work, although he retains his department chairmanship.

Summer was exciting for other regulars of the faculty. Stuart Pratt, of the music department, judged the National Guild of Piano Competition in Washington and was named to the Guild's Hall of Fame. Miss Beatrice Donley and Mrs. Jane Sullivan, also of the music department, toured ten European countries while on a professional development grant. Stephen Young completed his dissertation on early 20th century works of the German composer Sigfrid Karg-Elert for his doctorate from UNC-CH.

Leonard White, Miss Jo Anne Nix, and Grove Robinson, of the art department had a three man exhibit at the Brevard Music Center.

Conferences took much of the faculty's time. Dean L. A. Peacock, Dr. Roger Crook, religion, Dr. John Yarbrough, biology, Dr. Leslie Syron, sociology, attended a Danforth workshop in Colorado. Leonard White, art, and Dr. Ralph McLain, religion, discussed international studies programs at an American Association of Colleges workshop in Vermont.

# AROUND CAMPUS

## MCA PLANS MIRACLES

BY ALICE SMITH  
President of MCA

"The Miracle of Dialogue" — What is "dialogue"? How do we have it? Why do we want it? Is it worth the bother? These were a few of the questions raised on the recent MCA retreat, September 7-10, at Lake Norman. The MCA theme for the year was taken from Reuel Howe's book *The Miracle of Dialogue* which explains the importance of real one-to-one communication for living together productively and creatively.

When we arrived at the lake on Saturday afternoon, we were all expecting a series of dull business meetings, some girl-talk and fun. But we experienced true "serendipity" — we found what we weren't exactly looking for, because we discovered a group of very human people. We found that each of us had something significant to share with the rest. We learned to listen to each other and take each other seriously. When we left on Tuesday morning, we left not as individuals but as a group, excited about our discovery and anxious for others at school to have a similar experience.

The MCA council meets every Monday night at 6:45 in the Religious Activities office in Jones. Everyone is invited to attend and get involved.

## SAB WANTS "MORE"

BY BET GARRETT  
Chairman of SAB

Want to get the "inside story" on mixers at N. C. State?

Want to see a certain improvement made in dorm facilities or cafeteria services?

Want to suggest something new for May Day, Play Day, Concerts and Lectures, or social standards programs?

If the answer to any one or all of the above questions is "yes," then come to a meeting of the Student Activities Board.

The Board is made up of the chairman, the vice-presidents, society vice-presidents, dorm representatives, day-students representative, club presidents, Concerts and Lectures chairman, and College Marshal.

The function of the Student Activities Board as written in the SGA Constitution is "... to educate the student body in standards of social behavior, ... to encourage the development of cultural interests by promoting a broad program of social activities. ..." This year's SAB hopes to do even more than that. Meetings will be held every Monday night at 6:45 in the study room closest to the cafeteria in the basement of Poteat. The Board will welcome any and all suggestions, criticisms, and comments.

# Legislative Board To Study Policies

Both minor and major policies of the school are under discussion by the 1968-69 Legislative Board headed by Carol Price.

Relatively small issues such as a revision of the present college activities point system, a study of the keeping of cars on campus, and the elimination of "lights out" for freshmen on Friday nights are being considered. The possibility of new rules concerning overnight guests is also being studied on a suggestion that the guest must sign a form acknowledging her awareness of Meredith's regulations and, thereby, relieve the hostess of some of the responsibility and prevent possible misunderstanding.

A Judicial Reforms Committee is working in conjunction with the Judicial Board on questions concerning the Honor Code. Two representatives from the Legislative Board will also serve on a Cross-Section committee which serves to promote communication and interaction among all college organizations.

Controversial issues such as the jurisdiction of the college, the drinking rule, and the bachelor's quarters rule have also been referred to committees.

Although led by members of the Legislative Board, any of these committees is open to interested students who are not actually members of the board. Legislative meetings are held every Monday night at 6:45 and non-members may attend.

**ATTENTION SENIORS** — Graduate Record Examinations will be offered October 26, December 14, January 18, February 22, April 26, and July 12.
