

Collection of Original Graphics To Be Shown at Meredith

London Grafica Arts will present a collection of original graphics in an exhibition and sale at Meredith October 15-16 in Joyner Hall from 10:00 a.m. to 7:00 p.m.

This collection of prints is making a tour of colleges and universities through the U.S.A. enabling students, faculty, avid and new collectors to view about 500 works seen usually only in major galleries or museums.

A wide range of the history of prints is covered from 16th century manuscript pages; old masters, such as Rembrandt and Durer; 18th, 19th and 20th century examples; modern masters—Picasso, Braque, Chagall; and a wide range of contemporary prints commissioned especially by London Arts.

All the prints are original, that

is, they have been printed directly from the plate or stone that the artist himself has done.

All the prints are original; that ranging from \$10 to \$3,000.

Campus to Install Peripheral Lighting

A peripheral lighting system to surround the campus has been approved by the Meredith board of Trustees. The installation will begin in approximately eight weeks, as lights will be placed down the main entrance to the campus, along Hillsborough and Faircloth streets and adjacent to the Wade Avenue extension and the U.S. 1-64 by-pass. The stable area will also be lighted under this system.

According to Joe Baker, business manager of the college, the lights will be erected in two stages, primarily because new service roads will have to be constructed to the buildings to be built on the west side of the campus.

Additional outside lighting was also approved for the buildings on campus, with special attention given to Johnson Hall.
