Oak Leaves

This year's "Oak Leaves" editor, Karla Barger, explained a current change in the publication of the yearbook. Instead of meeting the January deadline and publishing a yearbook which only relays our fall semester, an effort is being made to incorporate "the whole school year." This means that students will not be able to obtain their Oak Leaves until the summer months instead of in May as it has been in the past. For those of you who may be unhappy with this change, consolation may come by remembering that the new publication will show Springs Court, Stunt, Founders Day, Rush Week and Graduation.

Jobs seen abroad

"Jobs for young people 18 to 29 are now available in Europe any time of the year" said Dr. F.X. Gordon, President of Princeton Research, at an interview with Stanford University and Palo Alto High School students.

"The European Common Market unemployment rate is 50 percent less than that of the United States. Job availability forecasts for 1974 High School and College graduates in the United States are not so rosy. There are more young people entering the job seeking market (some 1,300,000 per year) than there are suitable jobs.

We have a program called Jobs Europe" he continued.

"The aid of this program is to give young people, 18 to 29 years of age, an inexpensive and unique opportunity to live in, and learn about, Europe.

These guaranteed salaried jobs are mostly for trainees (general help) as stewardesses and stewards on trains, with large 1st class hotels, restaurants, supermarkets, department stores, etc. in Switzerland, England and Belgium. Most of the jobs include room and board in addition to local salary.
