

## Carpenters perform for April 15 benefit

James Hanson, President of the Wake County Unit, North Carolina Division, Inc., of the American Cancer Society, announced that the Society will be presenting the CARPENTERS in concert at Reynolds Coliseum, Monday night, April 15, 1974.

In four years Richard and Karen Carpenter have achieved status as the most popular vocal duo in the recording industry. Aged 27 and 24 respectively, Richard and Karen claim 14 gold records, and three Grammy Awards.

Their first hit single was Hal David's and Burt Bacharach's "Close to You," brought to their attention by Herb Alpert. Richard, an accomplished composer himself, has been responsible for the duo's last three hits, "Goodbye to Love," "Yesterday Once More," and "Top of the World."

Other hit songs have included "Close to You," "We've Only Just Begun," and "For All We Know" which also won the Oscar Award as Best Song for 1970.

In quick succession came "Rainy Days and Mondays," "Super star," "Hurting Each Other," "It's Going to Take Sometime," "Goodbye to Love," "Sing," "Yesterday

Once More," and "Top of the World."

Along with their Grammy Awards, the CARPENTERS Hosted a television series on NBC-TV and were honored on the television show "This Is Your Life." They also entertain frequently in concerts and in Las Vegas and Lake Tahoe.

In announcing the concert, Hanson pointed out that this is the Society's second fund-raising concert to help fight cancer. In April 1972 the Society presented the FIFTH DIMENSIONS in concert. This benefit raised \$10,000 for the cancer fund. "We are looking forward to a most successful concert with the CARPENTERS this year," Hanson said. "This type of fund raising not only allows the public to see the top vocal duo in the country, but allows them to contribute to the fight of the nation's number two killer, cancer."

Tickets for the concert will be on sale at all Record Bars in Raleigh, Durham, Chapel Hill, Greenville and Rocky Mount; Kerr Drugs in the Raleigh area, and at the Reynolds Coliseum box office. Prices are \$4, \$5, and \$6 in advance and \$5, \$6, and \$7 at the door.

THE SERENDIPITY SINGERS were first formed in 1963 at the University of Colorado.

The group has since played approximately 800 colleges, 49 states, 15 countries and has recorded 6 albums. They have played on the Dean Martin Show, Kraft Music Hall, the Bell Telephone Hour, Johnny Carson, Mike Douglas and approximately 30 other network television specials, including their own special, "The Serendipity Singers at Christmas", which was aired December, 1970. The group travels approximately 200,000

miles each year which encompass major nightclubs such as The Playboy Clubs, Harrah's, Lake Tahoe and Reno, The King's Inn, Bahamas, and, of course, a heavy accent on college concerts.

Their repertoire consists of a combination of original, self-penned material and songs written for the group by some of today's better known writers.

There is more to the Serendipity experience than music according to their advance publicity. On stage, the group augments its act with comedy and dramatic sketches. (The Serendipitys, as a unit, recently did some shows in summer stock).

To be able to perform this diverse material, the group demands versatility from each of its members.

Each member of the group is capable of doing a solo two-hour concert, and is a concert artist in his own right. Members also have at least two ranges in their voice projection, and all play at least three different musical instruments as well as read music and act! Another important prerequisite of being a Serendipity Singer is that all members must write original songs and comedy material.

The Junior Class anticipates that the Serendipity Concert will be a memorable Junior-Senior experience!
