The Virgin Islands Dept. of Education announces the following teaching positions for the 1978-79 school year: Elementary (K-6); Elementary and Secondary reading, music, special education, and Spanish; Secondary math, science, industrial arts, business education.

ADVANCED STUDY

QUEST-78 has reserved room for an experiment aboard an early flight of the U.S. Space Shuttle. Purpose: to help make the program accessible to deserving experimenters who lack resources to develop and finance such projects on their own. QUEST-78 invites groups or individuals to submit ideas for the best use of the Shuttle reservation and will donate it to the winner, in addition to sharing the experimenter's NASA fees and developmental costs, according to financial need.

The winning project can be in almost any field, ranging from astrophysics to medicine, economics to molecular biology. But it must be an experiment that can be done only aboard the Space Shuttle, fit into a container measuring five cubic feet, and weigh less than 200 pounds. Most important, QUEST-78 will give special consideration to proposals that promise some tangible, significant benefit to humankind, such as the eradication of disease, more efficient energy use, etc. Sheer commercial or military projects will not be considered.

Deadline for the QUEST-

Campbell College School of Law has announced Campbell scholarships which pay full tuition for three years. Nine or ten of these scholarships are available for the fall of 1978. Check Office of Career Services for more information.
