## Huber named Associate

Dr. R. John Huber, professor and chairman of the Department of Psychology at Meredith College, has been appointed a Danforth Associate.

Associates work directly with students on a personal basis in an effort to improve student-faculty relations and to strengthen the teaching-learning processes. Conferences are held for associates on various themes to carry out program objectives. In addition to being guests of the Danforth Foundation at conferences, associates are eligible to apply for grants for special projects to enhance faculty-student relationships.

The Danforth Foundation, established by the late Mr. and Mrs. William H. Danforth in 1927, is a national, educational philanthropy, dedicated to enhancing the humane dimensions of life. Activities of the Foundation traditionally have emphasized the theme of improving the quality of teaching and learning.

Before joining the Meredith faculty in 1974, Huber was an instructor of psychology at the University of Vermont and the State

University of New York at Plattsburgh. He also served as a research assistant and lecturer in psychology at the University of New Hampshire and assistant professor of psychology at Skidmore College in New York.

Huber is listed in Who's Who in the South and Southwest and Who's Who in American Colleges and Universities. He is a member of the American Psychological Association, Eastern Psychological Association, International Society of the History of the Behavioral Sciences, and American Society of Adlerian Psychology.

In 1976, he was one of five American college professors to present an empirical research paper at an international congress of Adlerian psychologists held in Munich, Germany. He has received several grants and has contributed professional writings to numerous publications in his field.

Huber is married to the former Pauline Poirier of Ipswich, Mass. They live in Raleigh with their three daughters, Jennifer, Beth, and Emily.
