

IN THE COURTYARD

"It's Meredith's 'funnest' tradition. I think it is awesome!"

Christine Watts

"I don't know, I'm only a transfer."

Kim Murray

"Cornhuskin' is a great Meredith tradition - good, fun competition!"

Kim Jones

"I think the skits are creative, but I think everyone getting dressed and putting on all that make-up is silly. All the teachers say Cornhuskin' is great but a lot of them won't let students out of their 5:00 classes to participate. I don't think that's fair."

Paula Wright

"It's an occasion at Meredith that brings the classes closer together. I think it's good."

Temple White

"It's a tradition at Meredith that brings the sister classes closer together."

Laurie Hastings

"Cornhuskin' is too profound for words!"

Jennifer Johnson

"Cornhuskin' is one of the most exciting times in a Meredith student's college career. It's wonderful."

Bliss Bright

"I think it's a special big sister-little sister occasion! I think it's good because it draws a big sister closer to her little sister; however, it does arouse a lot of hostility between rivaling classes."

Barbara Andrews

WHAT IS CORNHUSKIN' - ?

DO YOU THINK IT IS GOOD OR BAD?

"Cornhuskin' is something you can't EVEN define!"

Lizzy Mills

"It's a lot of fun!!"

Shelly Saintsing

"Cornhuskin' is crazy women on the loose."

Lisa Clark

"I think Cornhuskin' caters to certain "groups" on campus. If you're friends with the people "In charge", you'll get involved. I don't think you stand a chance on getting a leading role if you aren't in that 'click'. I also think that if Cornhuskin' was taken away, there would not be anything to get excited about at Meredith."

Cynthia Church

"Cornhuskin' is one of Meredith's most exciting and fun traditions."

Sally Dozier

"Cornhuskin' is fun competition."

Lynn Siuloff

"It causes too much noise. It's impossible to study and sleep. I don't think teachers should schedule tests. It's overrated."

Stephanie Bonnett

"Cornhuskin' is fantastic!!"

Ginny Leach

Kappa Nu Sigma Inductions

Kappa Nu Sigma held its annual fall coffee in the Mae Grimmer Alumnae House on Monday, October 8, 1984. Ten new members were inducted and four scholarships presented by Chelly Richardson, president.

Students eligible for membership in the fall are seniors who have maintained a 3.5 GPA over three years. Seniors inducted at the fall meeting and their majors are as follows: Elizabeth Caviness, Business Management and Accounting; Danna Collier, Psychology; Deborah Corey, Home Economics; Catherine Everett, Business; Marjorie Hissett, History; Lynn McElroy, Biology; Gayle McFarland,

Business; Angie Sellers, Business; Jeane Sumpter, Music; and Jean Williams, major unknown.

Helene Price Scholarships are awarded each year to the junior and sophomore who have maintained the highest GPA in their classes the previous year. This year's recipients are junior Linda Spain, and sophomores Lisa Powers, Laura Litchfield, and Paige Leist.

Membership in Kappa Nu Sigma, the oldest honor society on campus, is regarded as a significant accomplishment. Congratulations are extended to all the outstanding students recognized by Kappa Nu Sigma.

V. Pres. Bridgette Parker: 12:30-1:30 M, W

The office is located across from Le Greenhouse through the doors of the Publications Office.

Fellowships For Minorities

The National Research Council plans to award approximately 35 Postdoctoral Fellowships for Minorities in a program designed to provide opportunities for continued education and experience in research for American Indians and Alaskan Natives (Eskimo or Aleut), Black Americans, Mexican Americans (Chicanos), and Puerto Ricans. Fellows will be selected from among scientists, engineers, and scholars in the humanities who saw greatest promise of future achievement in academic research and scholarship in higher education.

In this national competition sponsored by The Ford Foundation, citizens of the United States who are members of one of the designated minority groups, who are preparing for or already engaged in college or university teaching, and who hold doctoral or other terminal degrees may apply for a fellowship award of one year's duration.

Awards in the Postdoctoral Fellowships for Minorities Program will be made in the behavioral and social sciences, humanities, engineering, mathematics, physical

sciences, and biological sciences, and for interdisciplinary programs comprised of two or more eligible disciplines. Awards will not be made in professions such as medicine, law, social work, library science, and such areas as business administration and management, educational administration, curriculum development and supervision, teacher training, and personnel and guidance. Tenure of a fellowship provides postdoctoral research experience at an appropriate not-for-profit institution of higher education or research of the Fellow's choice. Appropriate institutions include universities, museums, libraries, government or national laboratories, privately sponsored not-for-profit institutes, government chartered not-for-profit research organizations, and centers for advanced study. The deadline for submission of applications is January 16, 1985.

All inquiries concerning application materials and program administration should be addressed to the Fellowship Office, National Research Council, 2101 Constitution Avenue, Washington, D. C. 20418.
