

Career Connections

- **Pioneer Software** - Full-time and part-time positions available for Technical Support Reps. Call Larry Rappi at 859-2220 for information and interview.

- **Software Support Specialist** (6 positions) Telephone/hands on software support for desktop PC's. Degree in Computer Science/related industry. Salary to \$30,000! Candidates should mail or FAX resumes to Jan Wynns, Corporate Recruiter, COMPUTERLAND, 1100 Perimeter Park West, Morrisville, NC 27560, FAX #460-5273.

- **Elementary Art Position** in Nash Co./Rocky Mount Schools - starts in January. Apply now! Call (919) 459-5262 for more information.

- **Experience Washington, D.C.** - Internship at National Science Foundation, IRS, Dept. of Justice & other Special Programs and Seminars. For academic credit - scholarships are available. Come by Office of Career Services - 2nd Floor Cate Center.

- **NC Tax Payers Union Internship**, an organization that monitors state spending and work for lower taxes. Call Madra Britt (829-8341) for more information.

Computing director offers information

by Ruth Ann Balla, Director of Academic Computing

Note: This will be a biweekly column containing information on what's available and how to use computers on the campus of Meredith College.

The Harris Building houses three computer laboratories. One laboratory is on the first floor — room 102. This lab contains 22 computers. Sixteen of these machines have hard disks and have WordPerfect 5.1. The other machines have floppy drives and students must use diskettes to load software. This lab is used for word-processing, by students in Computer Science 111 Computers and Their Uses, and in general for any software that runs from floppy disks.

The lab that previously was in Harris 104 was moved to Harris 206. This lab contains twelve 80386-class microcomputers. This room is primarily used for soft-

ware that needs to be loaded on a hard disk to run or for software that requires a faster processor. Main users of the room are students in mathematics classes. Other users include students in business courses (both graduate and undergraduate), students in computer science courses, and students in sociology and politics courses who are using SPSS for statistical analysis.

This summer, the lab that previously housed the terminals for the mini-computer was upgraded. Harris 217B now has eight 80486-class microcomputers. This lab is used by students in statistics courses, computer science courses, students in the numerical analysis course, and students in the tax course.

Both of the labs on the second floor of the Harris building have combination locks on the doors. The purpose of the locks is to protect the computers from unauthorized use, destruction, and theft. The locks are NOT to stop any Meredith student from using the machines. Any student that needs access to the lab can get the combination from their professor. If you are not

in a class that requires use of the lab but want to use the lab, please contact me and I'll make arrangements for your access.

Just as with most resources, computer resources at Meredith are limited BUT with proper use (and conservation) the resources are available. The point of using certain machines for certain purposes is to make the best use of our resources. If you have suggestions — I'd like to hear them.

In future columns, I'll be discussing in more detail what software is available in each lab. I'll also be discussing lab policies. Since WordPerfect 5.1 is new this year, I'll spend a few columns on tips and tricks using WordPerfect 5.1. If you have questions about using computers, software, or just have a topic you would like me to cover — please, let me know. Either send me a note (Ruth Ann Balla, Harris Building) or leave a message on my voice mail (2803). Happy Computing!

Leadership seminar to be sponsored by Student Activities

by Cheryl Smith, Program Director, Office of Student Activities and Leadership Development

The Emerging Leaders Seminar Series is an eight-part, non-credit course designed for 30 freshmen and sophomores who have chosen to learn about the topic of leadership and to develop their leadership skills. Seminar topics include high self-esteem, leader-

ship styles, goal setting, decision making, situational leadership, and group communication skills. Also, students are asked to complete a structured interview with a leader/mentor of their choice and to observe a student organization in action.

The Spring 1993 series, sponsored by the Office of Student Activities and Leadership Development, begins January 12, 1993, and ends Febru-

ary 23, 1993. Sessions will be held on Tuesdays from 3:45 p.m. until 5:15 p.m. in Kresge Auditorium. A ropes course and recognition dinner also will be included in the series. Interested students are asked to sign up by Friday, November 13, 1992, in the Office of Student Activities and Leadership Development located on the first floor of Cate Center.

WOLFPACK 16" 1 - ITEM PIZZA & 2 SODAS \$7.33	2 SMALL 2 TOPPINGS & 2 SODAS \$8.43
GUMBY SOLO 12" 1 - TOPPING PIZZA & 1 SODA \$5.28	2 LARGE 1 TOPPING PIZZA \$9.90

50¢ per item for additional items

SENIORS!

The yearbook staff needs the following information from you. Please return it to Amy Alderman, 306 Barefoot, by Friday, Nov. 20. Questions? Call x7892.

Please include

- Your full name as to appear in the yearbook
- Your home address
- Your major(s)
- Your statistics (organizations you participated in at Meredith)

Please use the following codes:

- 1 - Freshman year
- 2 - Sophomore year
- 3 - Junior year
- 4 - Senior year
