

Highsmith joins Career Services

by Clarky Lucas

The Office of Career Services started off the new year with a fresh face taking on new challenges at Meredith.

Rebecca Highsmith began her job Jan. 7 as Assistant Director for Career Services working with cooperative education.

Highsmith will be in charge of organizing and managing the Cooperative Education program, instructing Career Planning seminars, executing training workshops, and meeting with students on career planning and employment issues.

"It is an exciting opportunity to bring businesses and students together, so students can learn about careers from a real world perspective," said Highsmith.

While at Meredith, she hopes to see a growth in the number of students who participate in the cooperative program. "It is a good way to learn about different careers and for students to open doors in careers they are interested in," said Highsmith.

Before coming to Meredith, Highsmith worked at Elon College as the director of Career Planning since 1989. She received her undergraduate degree from the University of North

Rebecca Highsmith is the Assistant Director for Career Services. She joined the staff at Career Services at the beginning of January.

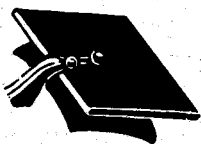

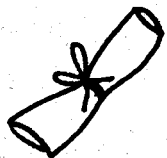

Carolina at Chapel Hill in business administration and her Master's Degree

in counseling at North Carolina Central University.

Security Notes by Chief Dan Shattuck

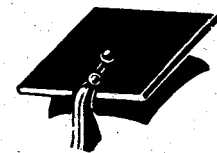

• Security would like to remind students that unless there are two or more students in a building, security will ask the student to leave. It is for the students' own safety that the rule is enforced.

• There have been complaints that security is not consistent in the area of giving parking tickets. Security is as consistent as they can be given the man power available. If a student has parked illegally on several occasions and has only gotten a ticket once or twice, that student is lucky. Lastly, it is necessary to remind students that tickets are given 24 hours a day, 7 days a week.

Hey Class of 1994!
