

PINE KNOLL SHORE LINE

Issue #14

June 1974

COLLEGE KIDS AROUND THIS SUMMER AT YOUR HOUSE? Some of them too new in these parts to have found cronies to compare notes with? Have them call Vivian Macdonald, 726-6727, and leave their names if they feel the urge to socialize or rap. Vivian will try to arrange a get-together some time during June. Nobody's going to push anybody into anything, but it is realized that finding friends is a bit more difficult for people beyond the walls of the red school houses - people who are perhaps only in PKS for a couple of summer months. Shore Line wants to help.

COMMISSIONERS' MEETING, May 9, 1974

Commissioner Hicks announced that a master street lighting system plan is being developed by a sub-committee of the Planning Board under the leadership of Mr. E.C. Baker.

Commissioner McBride was asked by the Mayor and board of commissioners to get data on the possibility of establishing a Civil Defense function in the Town. At the June 13 meeting Mr. Jack Savage, Atlantic Beach Civil Defense Director, will speak about the need for a civil defense program in a community.

Commissioner Ramsey stated that he is still studying the mosquito control problem, looking for a man to run the fogging machine, checking on what help the Town can get from either the county or the state.

The proposed ordinance on streets and street construction was tabled until further studies can be made.

The Mayor announced that Walter Wilcox of PKS has agreed to head up a study on fire protection for the Town.

SINCE THE MEETING: The deed to the Town Hall site property has been received from the Roosevelt interests and has been duly recorded, so that, in the near future, the building will be moved to its new spot on Bridge Road.... THE PROPOSED TOWN BUDGET for 1974-75 will be on display at the Town Office in the Atlantis from June 3rd through the 14th. A hearing will be held on this budget at 8:00 PM Monday, June 17th, in the Carteret Room of the John Yancey Motel. If necessary, an adoption meeting will be held in the same place on June 20th. Meanwhile, preliminary budget meetings have been held at the Atlantis on Thursday, May 23rd and Friday, May 31st.

MEET NEW NEIGHBORS:

DEBORAH AND WILL CAMPBELL are renting half the round house on Oakleaf. Will is district manager for American Standard Homes. They came here from their native Richmond, Virginia. Will is an author; watch for the soon-to-be-published novel of his called Beggars at the Golden Mint. Deborah is a graduate of the Fashion Institute of Technology in New York, has done modeling, and has been a buyer for a dress shop. Right now she is waiting for the birth of their first child some time in July.

VIVIAN AND BILL MACDONALD are settling into their life on Ash Court. Bill is with the Elliott Company, a subsidiary of Carrier Air Conditioning where he's been in the overseas division for many years, the last few of which they've lived in Westfield, New Jersey. Vivian says they've moved about every four years but she hopes this is the last one, as Bill expects to retire soon. They have twins (a married son and daughter) and another son, Garen, 19, who has just finished his first year at R.P.I. in Troy, New York, and expects to be here this summer. Vivian has been active in garden clubs all her life. She and bill both enjoy fishing, golf, tennis, and their particular hobby of metal and wood sculpture.

DOROTHY AND ED SIGALL are in their new home on Arbor Vitae; they come to us from Chelmsford, Mass. where Ed has been a flight test pilot for the federal aviation agency at Hanscom Air Force Base. They have a son, Dana, 19, who attends the U. of Ohio and is spending the summer working with a friend in Utah. When asked what he likes and wants to do down here, Ed replied quickly, "I'd like to get this cotton pickin' house finished so I'll know what I want to do!" Actually, he plans to
