

PIKSCO's ocean park will be called Baywood Park, since it is located off Bay Drive, which used to be part of Knollwood Drive.

PINE KNOLL ASSOCIATION BOARD MEETING, February 8, 1977: As we ease into the tourist and out-of-town guest season, the Association Board reminds us that visitors of Association Members who want to take their own cars to the beach access parking lot or their boat trailers and cars to the Association boat docks and park areas must be provided with GUEST STICKERS for this purpose by Members, who will recall that in the regulations which came with the original stickers is written the following: "Guest stickers are registered against the property owners, are one dollar each, and are good for one year only." Stickers issued now will expire June 30, 1978, will be punched accordingly, and can be obtained from Association Secretary-Treasurer ELIZABETH AMES on White Ash Drive.

Original stickers on members' cars are good indefinitely, so if you are caught short without a guest sticker, let your guest take your car. Better still, have a guest sticker ready just the way you have clean sheets and picked crab ready for the lucky folks who come to see you!

The Association Board invites us all to attend their monthly meetings, held the second Tuesday of every month at the Town Hall, Roosevelt Drive, Pine Knoll Shores, promptly at 7:30 p.m., in order to acquaint ourselves with the continuing work done by this loyal group of Directors.

BOGUE BANKS COUNTRY CLUB membership voted for what it calls "Plan B" at a special meeting held at the Club February 11. About 100 members were present, either in person or by proxy. The Board of Directors had put together Plan B in order to try to keep the membership in the hands of the members, avoiding takeover by the bank, which was imminent without some action of this kind. Plan B says that members in good standing as of February 21, 1977, must now: 1) Have their 1st quarter 1977 dues paid, 2) Purchase one member Equity certificate for \$100, 3) Purchase one \$1000 bond either by cash or by subscription.

Plan B won out strongly against any alternate plans and the current flowing through the room seemed to indicate big feelings of "let's hang in here and keep this thing going together!" Members were, of course, urged to make their pledges soon and to offer continued support to the Club, both by participating in its events and by using its facilities. We happen to know that there is the usual group of unsung-type heroes who have been more supportive than anyone else by being the most dedicated groundskeepers a club has probably ever known. Wild praises should be shouted for these guys, who would never have equals in hired help grounds workers.

PKS GARDEN CLUB enjoyed the hospitality of Mary Louise Nicholson's home in Mitchell Village where she gave the club a program on dried flower arrangements. Next Month, on March 28, the club will enjoy a program of orchids at the home of Mr. Lester Berger of Spooners Creek.

SINCE DECEMBER 14 the peripatetic plumbing executive's wife, one of your co-editors, has visited a variety of climates, with temperatures ranging from 60 down to minus 18.....

Sheboygan, Wisconsin was well into winter by mid-December, snow piled high everywhere, but mostly around parking meters, making it impossible to put in ones money without wearing skis.

Salt Lake City, on the other hand, two days before Christmas, was without so much as a flake of snow, and Snowbird, its big winter resort area, had less snow than Sheboygan's plowed streets. The sun shone for five days for us on brown ground, while at night Christmas lights twinkled on bare trees.

On to Seattle and more surprise sunshine, with views of Mt. Rainier to take your breath away, and a miniature snow fall that provided enough packing stuff for a fine snowman in at least one front yard. The snowman stood tall for a whole day, but the rest of the snow disappeared the first morning.

Back to Wisconsin for a week of blizzards, followed by a windy, snowy weekend in Chicago, where, quite frankly, the wind begins and ends and gets all its practice for the rest of the country.

Once more to Morehead City for a bit of rain and a fine clearing up before heading for below zero Wisconsin again. Then Dallas, bright and brisk and
