K4TW Events Close Out 14th Year

By Jean McDanal

Thank you all for your commitment and dedication to making our 14th year of Kayak for the Warriors (K4TW) a success.

The first event, on Friday, May 21, was the 2nd Annual K4TW Golf Tournament held at the Crystal Coast Country Club. It was a gorgeous morning for the 96 golfers to hit the links. There were lots of fun holes, including Beat the Pro and Luck of the Draw, and our infamous AR-15 that shoots golf balls 320 feet. Try to do that on a drive. Winners were:

First Place	Second Place
Clint Johnson	Tim Bowen
Russ Landen	Robert Garris
Jim Pridgen	Jeff Garris
Kenny Tetterton	John Garris

Golfers were treated to a barbecue lunch, a golf auction and our Wheelbarrow of Booze raffle. The wheelbarrow held over 20 bottles of spirits and was won by John Burnett. A big thank you goes to Kathy Blowers and her team for spearheading this event.

The second event, the signature Kayak/Paddleboard Race, was held on Saturday, June 5. Setup at Garner Park was delayed until early that morning because of

Keeping Up With the Clerk

By Charles Rocci
Pine Knoll Shores Town Clerk

Proper use of town dump sites

I hope everyone is having a joyous and safe summer. This month, I would like to remind everybody of proper waste disposal in Pine Knoll Shores and the greater Carteret County area.

The town hall waste site is available for all residents and visitors. This is a valuable resource which we need to utilize with great care. The town hall waste site is available for you to dispose of *only* household trash, recyclables and cardboard. Large signage on the dumpsters indicates which items can be placed where. Bulk items, such as furniture, electronics, and construction debris *will not* be accepted at the town hall waste site. It is difficult for the Public Services staff to deal with these items and takes away their ability to handle other important projects. The town has security cameras on the waste site and *will* issue fines to people who illegally dump.

Also available to residents is the yard waste collection center at Lot C next to the public safety building. Small yard waste trimmings can be placed in the designated areas. Please do not place logs or other large debris. You should also remove any plastic bags used for holding yard waste. The town provides biodegradable yard waste bags at town hall for \$2.25 for a bundle of five bags.

If you need to dump items which cannot be collected by town collection centers, there are other options for you in the county. Hazardous waste, bulk items and electronics can be dumped at the county waste site on Hibbs Road in Newport. Also check with local nonprofit organizations, such as the Salvation Army, to see if they are accepting clothing, furniture or electronics.

Your cooperation in this is appreciated.
