

Mr. Crain also requested permission for a sales representative of Vision Cable to solicit subscriptions for their service. The Board agreed to this proposal also on the condition that a letter stating the policy and method of solicitation be furnished the town.

Mr. Crain further stated that it is expected that Pine Knoll Shores would have cable television service sometime during the month of December. A relay tower is being erected on the roof of the Ramada Inn for this purpose.

DO YOU HAVE A SMOKE ALARM?

A smoke alarm may serve your life! That was the statement of O. K. Foster, Fire Chief, this month in his report to the Board of Commissioners. Chief Foster said that an investigation of the last two house fires in Pine Knoll Shores revealed that neither house was equipped with smoke alarms. It is possible, he said, that a functioning smoke detector would have resulted in an earlier alert that might have saved the properties. The law of North Carolina now requires that all new construction include smoke detectors, but this is not true of older houses. If your house does not now have smoke alarms, members of the fire department will help you select and install such a detector.

THIS 'N

There will be no garbage pickup on Christmas Eve, the Sanderson Sanitation company announced. The company said it will not operate on Monday, Tuesday, and Wednesday, December 24-25 and 26. They will, however, resume picking up at 7 a.m., on Thursday, December 27 and suggests that trash be set out as early as possible for that day's pickup. Large Christmas trees should be cut in 4 ft. lengths. General pickup begins at 8:30 a.m.

New city vehicle tags will go on sale beginning Wednesday, January 2 and if you are interested in having a special number please call the town clerk and the tag will be reserved for you if possible. Please have alternate choices in the event your first choice is not available.

AND NOW . . . A Merry Christmas and a Happy New Year to all!
