## MAYOR HALLER SEES STEADY PROGRESS FOR PKS

The Editor of Shore Line has asked me to list those things I see ahead for the Town in 1984.

Predictions are not my forte; when I have indulged in them I've usually been wrong. However, I can give some general indication of what I hope will come to pass in the Town this year.

I would hope that the Town's inevitable growth can continue to be controlled in such manner that its essential character will suffer no change.

I would hope that Pine Knoll Boulevard, leading as it does to both the Town Hall and the Marine Resources Center, might be made more attractive.

I would hope that there might be an acceptable resolution of such problems as may exist with respect to the creation of a shopping center in the Town as well as with respect to the disposition of excessive surface waters.

I would hope that the Town can continue the upgrading of its streets and the improvement of its street lighting system.

I would hope that the on-going codification of our Town Ordinances can be completed so as to make each of them readily accessible.

I would hope that our Rescue Squad and Fire Department can maintain their excellent performance record as in the past and that new volunteers, as well as the general public, will supply the support those organizations both need and merit.

Most of all I hope for our townspeople the good health, good fortune and contentment they deserve. By far our greatest asset is the body of fine people in this community and for each of them I hope for a 1984 that brings the very best.

Ken Haller, Mayor
