

### PLANNING BOARD MEETING

Clerk Corinne Geer administered the oath of office to newly appointed member, Jack Green, and reappointed members John Shedd, Clyde Lynn and Martha Hare.

The proposed addition to the Zoning Ordinance was discussed. A motion was made to approve the ordinance addition and recommend it be adopted by the Board of Commissioners.

Clyde Lynn said he will continue to study Emeral Isle's ordinance requiring a certain percentage of lots be left in their natural state.

The next meeting will be held on October 28, 1985 at 9:00 a.m.

### GREEN BAG DAY - WEDNESDAY OCTOBER 16

All town residents are invited to join P.K.S. Garden Clubbers in their annual town-wide litter clean-up. Be at Brock Basin at 9:30 a.m. for assignment. Bring gloves, pointed stick if you so choose and join the fun. Worker's efforts will be rewarded with a "south of the border" lunch and drinks at Town Hall about 11:30 so bring mugs and spoons. Joan Dawson and committee are coordinating this effort to "Keep Our Town Beautiful" which is a main part of the Garden Club's program. Club members also team up weekly to pick up trash in areas most prone to litter. The Club has received State-wide recognition for this and other projects in which it participates. So - let's get it all IN THE BAG!  
Rain date - October 17th.

Plans are being formulated by Margaret Smith and her Luminaria Committee for this on-going event Christmas Eve. Candles and bags are on order and kits will be made available for purchase and distribution after mid-November.

"Grow with Gardening" tip - Garlic lovers take note! Plant garlic bulbs around the perimeter of your vegetable garden this Fall - stifles pests - gets a pretty flower - is a perennial and you can harvest it. How about that? Phew!

### OUR NEW NEIGHBORS

When I visited Bob and Evelyn Smith at their new condominium overlooking the Sound at McGinnis Point they were entertaining two of their grandchildren, Nicole and R.K., 5 and 8, who have been enjoying their visit here. While I was there they went to collect sand dollars in the Sound and shared some of their specimens with me.

Bob is a marine consultant who travels all over the world; he worked out of New York City but now carries on his business from here. This work brought him to Morehead City about fifteen years ago and he made several subsequent calls here. Evelyn joined him on some of the trips and they drove around the area which impressed them favorably.

Evelyn was secretary to the Board of Education in Demarest, New Jersey, where they lived. They were avid sailors and had a boat on the Hudson River. Within two and a half months after coming here Bob had acquired an inflatable raft, a sail boat, and a 15 foot motor boat! This in answer to my question if they planned to boat here!

Ten years ago, the Smiths purchased two lots next to the Bill Grangers and in February came down to decide whether to build or to buy. They were impressed with the development at McGinnis Point and decided to settle there.

The Smiths have three sons and four grandchildren who live not too far from New York and Evelyn is interested in starting a project aimed at getting better air transportation to the New York airports and would welcome anyone interested in the project to work with her.
