

We also have ordinances concerning garbage and trash. [See 13-4]. Some important things to remember therein:

- Liquids must be drained off.
- Contents must be wrapped before placing them in the container
- Privately owned containers must not exceed 35 gal. capacity, must be kept reasonably clean and be water tight.
- Containers are not to be placed out prior to 12 hours before collection and must be removed from the right-of-way within 12 hours after.
- Racks or enclosures designed to hold garbage containers may not be placed on the town right-of-way.

So now you know. Or if you still have questions don't do anything until you have contacted the Town Hall. If they don't have the answer they will get it for you.

Do you want to burn your trash? DON'T!!!!!! There is a ban on burning right now while the drought persists. Once the ban is lifted there are certain conditions under which it is allowed. See Ordinance #11-4-2.

PINE KNOLL SHORES GARDEN CLUB

The april meeting of the Garden Club was in the form of a field trip arranged by Rachel Mangum, Vice President and Program Chairman. The group met at Town Hall at 9:00 a.m. and drove to the home of Ann and Steve Warner in the Cape Carteret area. Mr. Warner, well known for his landscape design and concern with ecology, led the group through part of their 10 acres in all their spring beauty. The group then shared a picnic lunch with their delightful host and hostess outside their 90 year old house which the Warners have renovated and furnished with many heirloom pieces from their family collections. Hostesses from the Garden Club who provided delectable desserts and cold drinks for the group were Shirley Hargroves, Dot Hassel, Ruth Smith and Rachel Mangum. It's a small world as Helen Granger discovered after good conversation with Mr. Warner and learning he was from their area in Ohio and distantly related to the Granger clan. There was one drop-out from the nature trail trek but I'll never tell.

As part of the 1986 Arbor Day celebration, a beautiful Savannah Holly tree was donated and planted to the right of the main entry to Town Hall. Town resident Erma Johnson directed the planting and Hizzoner Ken Hanan accepted same and tossed the final shovels of dirt on same in a low key ceremony.

Garden Club President Vivian Macdonald presented an outstanding program on Ikebana, the Japanese art of flower arranging, at a meeting April 23 at the Resources Center for the Seashore Council of Garden Clubs. Louise Jolitz has been named Vice President of this Council and Lois Jean O'Keefe Recording Secretary.

Plantings on Mimosa Blvd. are complete but the drought doesn't help. Anyone desirous of doing so can help by carrying water to help the plants survive. Bob Slack, Fire Captain, gave them a good soaking via the fire hydrant but more is needed.

May program will be a plant propagation presentation by Town resident Mary Rowan. Mary, an ardent gardener also, with the assistance of Club members, handles the beautiful plant display at the Resources Center.

Final meeting of the year and installation of new officers will be held Wednesday, June 11 at 12:00 noon at the Holiday Inn. Reservations for members are being taken by Shirley Hargroves no later than May 30.

LOIS LANE
