

We will learn basic wildlife rehabilitation skills - anatomy, rescue and transport, diets, diagnosis, and orphan care. I would also like to learn more about you and the special skills you have to offer, so that all of us can work together - as cage builders, baby bird feeders, secretaries, rescuers, raccoon moms, and all the other vital jobs -- to give wildlife in our area the excellent care it deserves.

To reserve a space in the class, please call Stephanie Goetziner at 247-5767. We will limit attendance to 25 people, so everyone will have the chance for "hands-on" experience.
