COMMISSIONERS MEET

Mayor Hanan called the September Commissioners' meeting to order and the reports of the past month were given.

Commissioner Blanchard displayed a new street sign configuration that might be considered as a replacement for the existing concrete sign posts. These attractive lightweight material signs would be mounted on a wooden post and placed at the 66 intersections in town. Commissioner Blanchard proposed that these signs would standardize the street signs that are presently in use in town. He also exhibited a proposed yard sale sign that could be issued for a small fee to residents planning such a sale. Both of these items will be discussed during a Commissioners workshop to be held September 18. Mr. Blanchard has just received the engineering study concerning the flooding at Acorn Court. He will review the recommendations and discuss the report at the workshop meeting. He is working on cleaning the area adjacent to the recycling bins to alleviate the unsightly conditions.

Commissioner Gibson reported that the Police Department responded to 130 calls in the past month. These calls included 9 auto accidents with 8 injuries reported and one house breaking and entering call.

Commissioner Johnson reporting on the financial statement noted that the Town's investments returned 7.98% for the month. Revenues that were received were 26.7% or \$104,813 and expenditures were 13.3% or \$64,906. He also was happy to report that all of last year's taxes were collected, thanks to our Tax collector Beverly Blalock.

Commissioner Roderick reported that 2 residential permits, 9 miscellaneous permits and 3 Certificates of Occupancy were issued in August. Mr. Roderick is investigating names of qualified arborists to establish guidelines for tree and bush pruning. Fred Fulcher proposed a change in the town sign ordinance to require that permits be obtained prior to signs being displayed.
