IT'S HURRICANE SEASON AGAIN.

WHERE IS YOUR HURRICANE PASS?

JANUARY BOARD OF COMMISSIONERS MEETING

WATER REPORT

The Appellate Court has deferred their decision on the Declaratory Judgement back to the lower court, which had ruled in favor of the Town earlier. This Judgement had to do with an agreement between Carolina Water Service and approximately 700 residents in the eastern section of Town. The Rural Development Commission has approved the final environmental assessment study and the Town is now in the process of completing the necessary steps that are required to receive the money. A final letter, with a purchase offer, has been mailed to Carolina Water Service with a reply requested within seven days.

SAND FENCING AND BEACH GRASS

The N.C. Dept. of Environment and Natural Resources has approved 4,200 linear feet of sand fencing and planting of beach grass for the proactive stabilization of the dunes for Pine Knoll Shores. This means the Town is eligible to receive \$8,505 for funding of this project after three bids are submitted to this department. The Board of Commissioners voted to have a five member committee appointed, which would be a representative from the Beach Preservation Association, Beacon's Reach Masters Association, PKA and PIKSCO, with Code Enforcement Officer Brownlow serving an an advisory capacity.

MOSQUITO GRANT

A grant application for mosquito spraying has been initiated for 1998 to the N.C. Department of Environment and Natural Resources.
