Hurricane Safety Tips

Hurricane Season is June 1–Nov. 30.

The safest way to protect yourself is to immediately evacuate the area.

But if you've decided to ride the storm out at home, take note of these survival tips.

- Monitor water levels in your neighborhood. This is your quickest signal to move to high points in your house or to evacuate to higher ground.
- Listen for tornadoes. Tornadoes often lead the way in a tropical storm.
- Get some rest. If at all possible, sleep in shifts so everyone is rested if the time comes to evacuate.
- If you are in the middle of a hurricane, **STAY PUT** until the storm passes. If you must leave your house for an emergency, use a large, heavy vehicle, drive slowly, be alert and don't go very far.

* Annual Percentage Yield (APY), effective 7/1/06. Certificates of Deposit (CDs) are federally insured up to \$100,000 (principal and interest accrued but not yet paid) per issuing institution. CDs are also federally insured up to \$250,000 (principal and interest accrued but not yet paid) in qualified retirement accounts per issuing institution. Subject to availability and price change. CD values may decline in a rising interest rate environment, and the market value may fluctuate if sold prior to maturity. The amount received from the sale of a CD at current market value may be more than, less than or equal to the amount initially invested. FDIC insurance does not cover losses in market value in these instances. Early withdrawal may not be permitted. Yields quoted are net of all commissions. You pay no additional commissions, annual fees or periodic charges. The estate feature allows heirs to redeem the CDs upon the death of an owner at face value plus interest earned, subject to limitations. CDs require the distribution of interest and do not allow interest to compound. CDs offered through Edward Jones are issued by banks and thrifts nationwide. \$5,000 minimum investment per issuing institution.
