Poor Jane Reynolds!*??! It seems as though she has to slide down the hill from Nantucket to the Rayon Mill for First Aid Treating, etc., at precisely 2:40 p. m. Inasmuch as she leaves at 2:39, it is a perilous trip. A pair of skates, sled, or other wheeled conveyance, would manage to help her at least catch up with her breath within 20 minutes after arriving. Also wanted, one tow car to pull said nurse up same hill.
