

## Receive Promotions To Supervisory Jobs

Shown here are recently promoted foremen and assistant foremen, several of whom received promotions to fill vacancies left by employees retired under the pension plan. In upper picture, seated, left to right, are: Dan Squires, assistant foreman on third shift in Sheeting Spinning; Herman Blackwell, foreman on third shift in Blanket Wool Carding; Ray Warner, foreman of Rayon Entering. Standing, left to right, are: Glenn Wilson, assistant foreman on third shift in Sheeting Weaving; A. E. Shumate, foreman of Karastan Dyeing; F. H. Minter, second shift foreman in Blanket Wool Carding; and Clyde Hall, assistant foreman in Blanket Wool Carding.

In lower picture, left to right, are: William Dew, assistant foreman in Woolen Finishing; J. E. West, assistant foreman in Warehouse Shipping; and Harvey Biggs, assistant foreman in Finishing Napping.

## Numa R. Martin Is Named Instructor In Training Department

Numa R. Martin has been transferred from the Wage Bureau to the Training Department and will take up his duties there August 28. His work will consist mainly of following up suggested improvements which have come about through the medium of Work Simplification. Along with these duties he will be available to help employees with the working out of their ideas for improvements.

Because of his recent training at A. H. Mogensen's Work Simplification Conference at Lake Placid, N. Y., he will also be used to conduct classes in Work Simplification in the various mills.

Martin is a native of Rockingham County and a graduate of Leaksville high school. He attended Shenandoah College, in Virginia, and has had varied work experience both with the Company and outside firms.

His first connection with the Company was as a doffer at the Bedsread Mill. He was subsequently a doffer in the old Lily Mill, a packer in the old American Warehouse, and a silk soaker at what is now the Rayon Mill.

For several years he was a weaver at the Rayon Mill, and in 1940 was transferred to the superintendent's office to make loom stoppage tests. He continued in the same type work at the Woolen and Bedsread Mills, and in late 1940 was transferred to the Wage Bureau.

While engaged as a Wage Bureau checker he received training in time study work and subsequently became a time study engineer, working in several different mills. During the war he resigned and went to Wilmington where he did time study work for the North Carolina Shipbuilding Company.

He re-joined Marshall Field and Company in 1943, and was assigned to time study work in the mills in the Spray area, and most recently was assigned as the engineer for the Karastan Mill.

In the summer of 1945, Martin went to the University of Iowa, at Iowa City, where he attended the Summer Management course conducted by Prof. Ralph M. Barnes, professor of Industrial Engineering at the university.

### CARD OF THANKS

We wish to thank all our friends for their kind expressions of sympathy and for all their kindness shown to us in the death of our son, Willis McKenley Booth.

THE BOOTH FAMILY  
Blanket Mill.

Many a girl will scream at the sight of a mouse but think nothing of stepping into a car with a wolf.
