## Snow In July

No, you aren't seeing things. It is really five-year-old Charlie MacIsaac, of Country Club Road riding his sled on one of the hottest days in July. When Charlie's father, John T. MacIsaac, of the Engineering Dept., defrosted his deep freeze and threw out the "snow", the youngster ran to the garage and dragged out his sled.

## Old Council Picture — How Many Can You Name?

The picture above was made from an old photograph belonging to Roy Seay of the Cash and Insurance Dept. at the General Office. It shows an early meeting of the Carolina Cooperative Council in the gymnasium at Central YMCA, Spray, probably around 1920 or 1921.

If you look closely, you will be able to identify a number of present Council members. L. W. Clark, at that time general manager of the mills, is shown (with folded hands) in center foreground. Hard-working secretary in left foreground is Luther H. Hodges.

## Seminary Representative Pays Visit To Mills

Rev. Lamar Williamson, Jr., of Union Theological Seminary, Richmond, Va., spent several days here as a part of a religious survey of industrial areas. He will report his findings to the seminary faculty for their use in training men for pastorates in southern industrial communities. He is shown (left) with J. K. McConnell, industrial chaplain at Fieldcrest Mills.

A native of Monticello, Ark., Mr. Williamson graduated from the Seminary in May 1951. This Fall he will go to Montpellier, France for study in the Seminary of the Reformed Church of France. He will study on the Howerton Award, a fellowship established at Union Seminary to foster biblical preaching.
