 by assures a uniform product.  
 bleaching range, the piece dyed  
 absorbency.  
 dyeing range is that it reduces  
 also simplifies the bleaching  
 thereby reducing cleaning time  
 the range, which increases pro-

range

## Historical Pictures Featured In Fair Exhibit

The Fieldcrest Mills booth at the Tri-City Agricultural Fair won a first prize in the industrial exhibits. The display contained an attractive arrangement of the newest products of the mills surrounded by a pictorial dis-

play portraying the history of Fieldcrest Mills in the Tri-City community.

Thousands of fair-goers viewed the collection of pictures which had been shown earlier at the 25-Year Club picnic but which was moved to the fair to enable the public to see them.
