## Safety Barbecues

Employees of the Bleachery were given a barbecue by the Company in recognition of their 1959 safety record. Pictures taken at the barbecue are carried on pages four and five of this issue.

Other mills qualifying for State Labor Department safety awards and for barbecues for the employees are: Automatic Blanket Mill, Blanket Mill, Central Warehouse and Sheeting Mill.

Barbecues for the other mills are to be held later in the year.

## National Ads Feature Karastan Products

## New Bokhara Rug And Tourneau Broadloom Pattern Promoted In Spring Advertising

Karastan's new ivory Bokhara rug and the new Tourneau broadloom pattern in the Kara-loc construction are featured in beautiful colored advertisements in Karastan's Spring 1960 national advertising program.

The Bokhara rug ad appears in the latest issue of House \& Garden, which went on sale February 20, and in The New Yorker, on sale March 3. The ad featuring Tourneau broadloom was carried in the same issue of The New Yorker.

Karastan's emphasis on the Bokhara design and Tourneau carpet is in line with a significant return of the influence of traditional styling. The Bokhara ad reflects the formal influence of traditionalism while the Tourneau ad is somewhat less formal.

The key to the spring advertising program is best expressed in a phrase used often at the January Market in Chicago, "Elegance-a returning way of life."
The Bokhara ad will appear in the April issue of Holiday, on sale March 15 , and in the summer Bride's Magazine, which goes on sale April 15.
The Tourneau ad is scheduled for the April issue of Living for Young Homemakers, on sale March 20, the April issue of Town \& Country, on sale April 5, and the May issue of House Beautiful, on sale April 19.

See pictures on page three.
