

# Attendance Champions At Spray Area Mills

Pictured on these pages are employees of the Spray area mills who had perfect attendance on the job throughout 1961. In addition to those shown, there were a number of other employees with perfect attendance records who are not included in the photographs.

Regular attendance on the job is essential to maintaining efficient production. When an employee is absent, work schedules are disrupted which affect more than the individual job of the absent worker. The Spray area employees shown have contributed to the success of their respective mills by working every scheduled day in 1961.

From left, Herbert Shockley, Walter Shorter, James Meeks, James Pruit, of Finishing Mill, second shift.

The picture above shows nine employees from the various departments of the Bedsread Finishing Mill who had records of perfect attendance on the job throughout the year 1961. In

the picture, shown from left to right, are Gene Sharp, Everette Thornton, Joe O. Neal, Flora Stegall, Frances Nance, Mildred Rickman, Hazel King, Fleta Martin and David Alley.
