

Scholarship Winner Gets Honors At State

William Gale Rhodes, a Fieldcrest scholarship recipient, has received a Phi Kappa Phi certificate in recognition of superior academic performance during his freshman year at North Carolina State College.

The certificate, signed by John W. Cell, president of the North Carolina State College Chapter of Phi Kappa Phi, carried the following statement:

"On behalf of the local chapter of the Society, I congratulate you upon the praiseworthy record that you have achieved thus far as a student in the College, and express the cordial hope that through your further attainments as a scholar and campus citizen, you may merit election into Phi Kappa Phi."

Gale also received a certificate of commendation from State College.

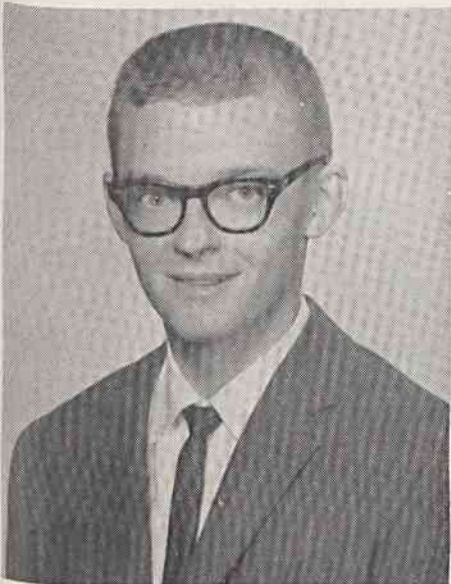

In his first semester at State, Gale earned four "A's" and two "B's".

He is a son of Mr. and Mrs. Carl D. Rhodes, of Leaksville. His father is assistant designer in the Domestic Designing Department. Gale tied with Glenda Dale Overby, another Fieldcrest scholarship recipient, for the highest scholastic standing in the 1961 class at Morehead High School.

At State, where Gale is majoring in electrical engineering, he is being assisted financially by a Fieldcrest scholarship worth \$2,000 over the four years of college attendance.

To date, the Fieldcrest Foundation has granted a total of eight scholarships and is scheduled to give additional scholarships each year to employees or children of employees who are entering college for the first time.

Recipients are selected on the basis of their academic aptitude, good citizenship and leadership, and the need for financial assistance in obtaining a college education.

Foremen Cited For Waste Records

Foremen with best waste control records in their respective mills are shown here with Robert A. Harris, vice president, manufacturing. From left, Mr. Harris, J. C. Haraway, A. E. Greene, A. D. Robertson, R. E. New, Roy Thompson, Oscar Simmons, Eugene Purcell, Robert Jamerson, Marvin Clifton and T. B. Hamrick.

Harris Congratulates Foremen With Best Waste Reduction Records In Their Mills

A tremendous amount of attention to reducing waste is represented in the accompanying pictures which show the foremen who had the best waste control records in their respective mills during 1962.

These 11 foremen were invited to the office of Robert A. Harris, vice president, manufacturing, and congratulated on their effectiveness in training employees in waste reducing methods and encouraging their interest in preventing waste.

The foremen gave the credit to their assistant foremen and the production employees whose interest and cooperation in preventing waste made possible the reductions in waste in their departments.

Preventing Waste Lowers Costs

"The prevention of waste is one of the easiest ways to lower our manufacturing costs," Mr. Harris said, "and lower costs give us a better chance in competing with other manufacturers in the sale of goods. Although some commendable records in waste control were achieved in 1962, there are still tremendous savings to be made if proper work methods are used and employees make it a point to prevent waste on their particular jobs."

The foremen with the most outstanding waste control records, based on Wastemeter standards, were: Automatic Blanket Plant, M. D. Stearns, Blanket Wiring; Bedspread Mill, A. D. Robertson, Winding; Blanket Mill, J. C. Haraway, Wool Picking; Bleachery, Eugene Purcell, Jig Dyeing; Finishing Mill, Roy Thompson, Napping; Karastan Mill, Oscar Simmons, Finishing and Cut Order; Karastan Spinning Division, A. E. Greene, Spinning; Sheeting Mill, T. B. Hamrick, Weaving, and R. E. New, Carding and Spinning (a tie); Sheet Finishing, M. E. Clifton, Sheet Cutting and Sewing; and Towel Mill, Robert Jamerson, Weaving.

Malcolm D. Stearns, foreman of the Blanket Wiring Department, gets congratulations on good waste reduction from Robert F. Sambleson, manager of the Automatic Blanket Plant.

Buy-Sell-Swap
