

Full-Line Vending Is Installed At Bedspread And Karastan Mills

W. Saul (left) and George Kingston were among first to patronize new vending machines in Karastan Weave Room.

C. Lumkin makes purchase from new vending machines at Bedspread Mill.

New Facilities Include Latest Type Of Automatic Equipment; Variety Of Items Vended

A major improvement in canteen service at the Leaksville mills has been made through the installation of full-line vending in the Bedspread and Karastan Mills.

The latest-type automatic machines have been placed in central locations in those mills to dispense fresh-brewed coffee, hot chocolate, milk, bottled drinks, hot or cold sandwiches, nine different kinds of soup (hot in the can), pastries, candy, potato chips and cigarettes. Also included are a change-maker and a condiment bar.

A battery of 10 vending machines has been installed in the Karastan Weave Room similar to those already in the Burling and Finishing Department and the Setting Department. In addition there are other machines placed throughout the mill vending coffee, hot chocolate, pastries, candy, etc.

A special room was built in the southwest corner of the Spinning Room at the Bedspread Mill with entrances from the Spinning, Winding, Weaving, and Dyeing departments.

Smaller installations are already in use in the Cloth Room and Weave room and coffee and Coke machines are placed throughout the mill convenient to all employees.

Income from the Canteen Service goes into the Fieldcrest Foundation, a non-profit organization for promotion of religious, charitable, scientific, literary and educational causes.

Recent projects include scholarships for employees or children of employees and extensive improvements to recreation facilities at playgrounds throughout the Tri-Cities.

Credit Union
