Interior Design Students Make Visit To Karastan

Interior design majors from Richmond Professional Institute, Richmond, Va., were recent visitors at the Karastan Mill. The group of 32 juniors and seniors was led by Jerry Field, associate professor of interior design who is a faculty adviser; and Mrs. Dorothy Hamilton, instructor in interior design. The visitors spent most of their time

in the Karastan Designing Department. There they heard discussions of the operations of the Designing Department and saw the various steps in the production of a rug design. The students later were conducted on a tour of the mill to see the manufacturing processes. In the picture at left, above, J. E. Gardner, Fieldcrest training manager,

greeted visitors. He told students of the qualifications and requirements for becoming a rug designer. In picture at right, above, Archie Millar, head designer at Karastan, talks with, from left, Delores Matthews, a senior from Thomasville; Diane McCombs, senior from Virginia Beach, Va.; and Helen Davenport, junior from Falls Church, Va.
