

Graduate Students Tour Draper Mills

Graduate students in a summer course in textiles and home furnishings at the University of North Carolina at Greensboro recently toured the Blanket and Sheeting Mills at Draper and later visited the Karastan Rug Mill at Leaksville. The group was composed mainly of teachers from various parts of North Carolina and distant states. They will use their observations at the mills as a basis for classroom discussions.

Dr. Pauline Keeney, professor of Home Economics at UNC-G, made the arrangements for the visit and accompanied the students on the tours of the mills.

Visitors from the University of North Carolina at Greensboro are shown at Draper prior to their tour of the Blanket and Sheeting Mills. Dr. Pauline Keeney, who is professor of home economics at UNC-G, is second from left.

In Cotton Carding Department at the Blanket Mill, Fred Jones explains fly frame operation to visitors, from left, Lou Goddey, Barbara Wise, and Dot Johnson.

'Three Cheers' Ad

Fieldcrest's new "Three Cheers" ensemble is featured in a full-page, colored advertisement to appear in several leading magazines.

The ensemble includes bright stripes and stars on towels and sheets; harmonizing blankets in solid red, white or blue; and star-sprinkled or solid red, white or blue bath rugs.

The ad will appear in the September 19 New Yorker; in the September issues of Sunset, Harper's Bazaar, Town & Country, and Yachting; and in the fall/winter issue of House & Garden Decorating Guide.

Reprints of the ad have been posted in the mills to be seen by employees.

THE MILL WHISTLE

Graduate

James B. Lamar, Jr., received his B.S. degree with a major in physics from North Carolina State, the University of North Carolina at Raleigh. He is the son of Mr. and Mrs. J. B. Lamar, of Leaksville. His father is head of the Fieldcrest Domestics Designing Department.

Top Weavers, Fixers Listed At Towel Mill

The Towel Mill's top quality weavers and loomfixers are listed below for the most recent periods of record.

The "Weavers of the Week" are those with the lowest per cent of seconds in relation to the standards.

The top loomfixers are determined on the basis of both quality and loom efficiency on their respective sections.
