

Many Gallimores Have Worked At Fieldcrest

It was a reunion of former Fieldcresters as well as brothers and sisters when several relatives came to Leaksville recently to visit members of the Gallimore family.

The visitors included Mrs. Myrtle Harmon, Roanoke, Va., Fred H. Gallimore, Saxonville, Mass.; and Mr. and Mrs. Paul W. Gallimore, Fairfax, Va. They were visiting Mrs. Jesse L. Adams (the former Eva Gallimore), James Gallimore and John Gallimore.

Every Gallimore brother and sister mentioned above is a former employee or is now employed by the company. James G. Gallimore works at the Bedspread Mill. Mrs. Adams is retired from the Karastan Mill and John Gallimore (now a Rockingham County deputy sheriff) is a former Karastan employee. Mrs. Harmon was employed at the Athena Knitting Mill at Leaksville before the Karastan Mill was established. Fred and Paul Gallimore both worked at the Karastan Mill.

New Travel Guide

FOR SALE: Roto-Tiller plow (Briggs & Stratton motor) used only five or six hours. Also a wood saw for Farmall tractor (Cub). James Craig, Price Road. Tel. Stoneville, 573-3883.

6,000 Fieldcresters Can't Be Wrong!

Yes, that's right. Over 6,000 Fieldcrest employees belong to the Credit Union and use its services. They take advantage of the opportunities it offers for regular savings through payroll deductions and for low-cost loans when they need to borrow money.

Did you know that if you saved \$3.00 a week in your Credit Union share account, you would accumulate \$780 plus interest in just five years? And if you were to put aside only \$5.00 a week, you would save \$1,300 plus interest in five years, or \$2,600 plus interest in ten years.

With the Credit Union's liberal 4-1/4% dividend rate, your savings grow at a surprisingly rapid pace.

Why don't you become a member and "save a little every week"? It is easy to save regularly at the Credit Union. Try it.

A row of inspection tables in the Sheeting Mill Cloth Room, minus one operator.

Your Absxncx Is Fxlt

One letter absent from the alphabet doesn't really make a big difference—or does it?

One employee absent from his or her job doesn't really make a big difference — or does it?

Think about it . . .

Jox and Janx Absxntxx do not rxally mxan to shirk thxir rxsponsibilitixs. It is just that thxy don't rxalizx how much thxir unjustifxd absxncx works a hardship on so many othxrs. Yxs, your absxncx works a hardship on your fxllow workxr, your company, your family and yoursxlf.

Whxn you'rx not on thx job, somxonx xlsx must do your work. This causxs a hardship on your fxllow workxrs — thxy don't apprxciatx having to takx on somxonx xlsx's rxsponsibilitixs.

Whxn somxonx doxs your job, work is bound to suffxr, bxcusx that pxrson is unlikxly to havx thx samx skill or abilitixs that you havx.

Whxn you shirk rxsponsibilitixs, how can you xarn a living? This is not bxing fair to your family.

Whxn an xmployxx is chosxn for a bxttxr job or a promotion, an important considrxation is his attxndancx rxcord. A poor rxcord may stand in thx way of promotion.

If thxsx pointxrs arx takxn to hcart, you will bx lookxd upon as an outstanding mxmbxr of our txam.

How about it?

One letter missing or one employee missing makes a big difference. Both are really felt.
