

Purcell, Stone Named To New Positions

D. A. Purcell, general manager-towel manufacturing and manager of the Fieldale Towel Mill, Fieldale, Va., has been appointed division vice president-towel manufacturing.

William O. Stone, Jr., assistant manager of the Fieldale Towel Mill since September, 1966, has been appointed manager of that mill.

Mr. Purcell had been general manager-towel manufacturing since September, 1966, with responsibility for the Fieldale Towel Mill, the Columbus Towel Mill, and the Mount Holly and Worthville Spinning Mills.

Mr. Purcell, a native of Rockingham County, N. C., received his B. S. degree in textile manufacturing at North Carolina State College where he graduated with honors and was elected to Phi Kappa Phi, a national honorary society.

He was associated with textile companies in various southern states prior to joining Fieldcrest Mills in 1938.

He was superintendent of the Blanket and Sheeting Mills at Draper and later was given additional responsibility for finishing, warehousing and shipping operations. He had been manager of the Fieldale Towel Mill since 1955.

Mr. Stone is a native of Newberry, S. C. and a graduate of Clemson College with a B. S. degree in chemistry. He enrolled at the Institute of Textile Technology soon after his graduation at Clemson, and received his M. S. degree in textile technology in June, 1957. He joined Fieldcrest immediately as

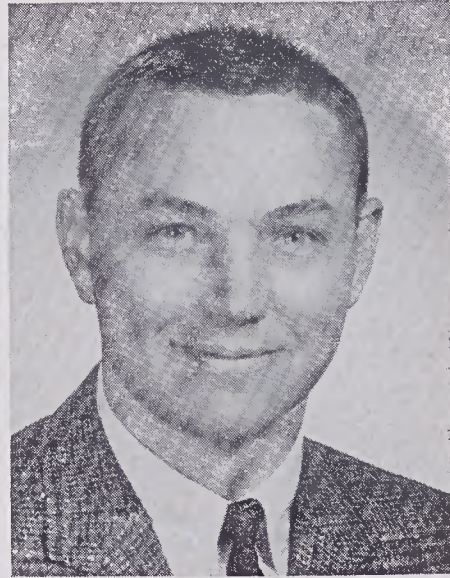

D. A. PURCELL

a quality control engineer in the Research and Quality Control Department at Eden. He left shortly afterwards for six months of service as an officer in the Army Signal Corps.

Soon after his return he became a trainee assigned to the Draper mills. He served as foreman of the Blanket Mill Cotton Spooling, Winding and Warping Department, foreman of the Wool Spinning Department, and as staff assistant to the superintendent.

He became assistant superintendent

W. O. STONE

at the Towel Mill in October, 1962 and was appointed superintendent of sewing, shipping, warehousing and customer service January 11, 1965. He served in that capacity until he was promoted to assistant mill manager.

To Build New Mill

G. W. Moore, president of Fieldcrest Mills, has announced that Fieldcrest will add additional spinning capacity to its Karastan operations.

The additional manufacturing facilities will be constructed on land owned by the Company at Greenville, N. C. Construction is to begin this year and be completed early in 1970.

When completed the new plant will furnish employment for approximately 70 additional people.

The plant will be built in the Industrial Development Park on Highways 11 and 13, adjacent to the Empire Brush Company property.

The brick and steel one-story building will contain 50,000 square feet and will cost approximately \$1½-million.

Nine Vice Presidents Promoted By Company

(Continued from Page One)

H. Lea, division vice president-raw materials purchasing and traffic; and H. H. Newton, division vice president-industrial relations.

F. A. Euforbia, president and manager of Foremost Screen Print, Inc., will report to A. L. Jackson. Mr. Euforbia previously reported to R. A. Harris, vice president-manufacturing.

J. M. Geer, purchasing agent-supplies, who previously reported to R. A. Harris, will report to H. H. Lea, vice president-purchasing.

Ed Rader Receives Campus Scholarship

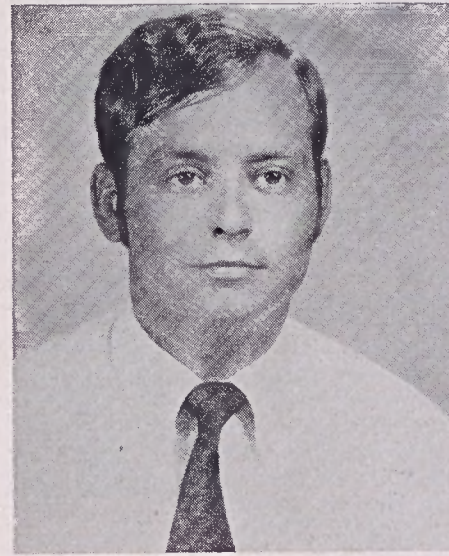

Edward R. Rader received a pleasant surprise last week when he was informed that he had been awarded a \$1,000 scholarship from the Fieldcrest Foundation to assist him with his education at Georgia Institute of Technology.

Mr. Rader was employed in June as a summer management trainee in the Technical Services Department at Karastan. He is from Lenoir and is a rising senior majoring in textile management. He said he "had no idea" he would be nominated by his school to receive the scholarship.

His was the second grant to be made under a campus scholarship program which the Fieldcrest Foundation recently established at Clemson University, North Carolina State University and Georgia Tech. The scholarships are worth \$1,000 per year for both the junior and senior years.

Barry Gray Mattox, a rising junior at Clemson, received the first scholarship. He is working with Fieldcrest this summer in the Mechanical Development Department.

The scholarships are awarded on the basis of interest in a textile industry career, academic achievement, citizenship, campus activities and financial need. The scholarships also carry an

EDWARD R. RADER

opportunity for summer employment with Fieldcrest.

This coming academic year there will be one student at each of the three schools participating in the program. Beginning next year, there will be two students on each campus with a scholarship—a junior and a senior.
