Elon Secretarial Students Visit Offices

A group of 32 students and two teachers from Elon College in Elon College, N. C. recently visited the Fieldcrest Mills General Offices in Eden. The group included seven business education majors and one and two-year secretarial course students.

The girls, in groups of three, visited with Fieldcrest secretaries to learn about their jobs and the various duties of each one. Purpose of the visit was to give the students an opportunity to observe secretaries actually at work on the job.

The program also included a tour of the General Offices and a meeting in the Conference Room. At the meeting, J. R. Stephenson, assistant manager of employee benefits, talked about employee benefits and what should be looked for before joining a company.

Lou Stophel, secretary to Dr. L. H. Hance, gave a talk on the different type jobs at Fieldcrest and some of the things a good secretary should know and do.

The visitors were also shown a film on Fieldcrest fashions by Betty Flinchum, secretary to J. F. Scott, manager-Business Information Department.

The visit concluded with lunch at the Meadow Greens Country Club and a tour of the Fieldcrest Store.

TEXAS COTTON

One-third of all the cotton grown in the U. S. comes from Texas. Since production began there in 1822, Texas has produced approximately 300 million bales of commercial cotton, enough to supply the entire U. S. textile industry for more than 30 years.
