

Kansas Group Makes Tour Of Fieldcrest Plants

A group of approximately 50 Kansans, making a bus tour, visited textile plants in the Greensboro-Eden area under the sponsorship of the American Textile Manufacturers Institute. Fieldcrest cooperated with the ATMI in arranging for the visitors to tour the Karastan Rug Mill, the Bedspread Finishing and Sheet Finishing Mills at Eden, and the Foremost Screen Print plant at Stokesdale. The group also visited the Fieldcrest Store.

In the picture at left above, Danny Lewis, a supervisory trainee at the Sheet Finishing Mill, conducts a group on a tour of the plant. At the right above, Lloyd Price, section foreman in the Drape Department, is guide for another group in the Bedspread Finishing Mill. The operator shown is Margaret DeHart, sewer-pillow shams. In the picture at right, M. J. (Bill) James, foreman of the Sample Department, is guide for a group during their tour of the Foremost plant. The operator at far left is Emily I. Mabe, inspector.

Daughter Of Employee Gets State FHA Honor

Teresa Bailey, a member of the Chase High School Future Homemakers of America club was first runner-up in the election of State FHA secretary. The election was held at the District VIII FHA rally at Asheville High School.

Miss Bailey competed with five other candidates from Western District schools for the state office. As first runner-up she will assist the winner in her duties on the state level for the district.

She is the daughter of Mr. and Mrs.

Speaker Cites Textile Career Opportunities

(Continued from Page One)

... all this and more is part of tomorrow's world of textiles.

"The industry is continually searching for employees on all levels of education," Mr. Schoenbach said. "The high school and vocational graduate is just as welcome as is the college-educated major in textiles."

He said that the outlook for the college man or woman in the textile industry is most promising, not only for textile majors, but for market analysts, designers, engineers, accountants, chemists, manufacturing foremen, leadmen supervisors, computer programmers and many other job classifications.

He told the group that the textile industry, nationally, is a big and vital one—employing about one million men and women, producing 15 billion yards of cloth each year and having sales last year of \$21 billion.

Appearing with Mr. Schoenbach on the two hour panel discussion, "Textiles: A New Opportunity for Youth" were the

Willard Bailey of Forest City. Her mother (Gay) is employed in the Payroll Office at the Alexander Sheeting Mill.

moderator, C. P. Eldred, The Bernis Tallageda, Ala.; Joe W. Richardson, Russell Mills, Alexander City, Ala.; J. M. Cheatham, president, Dunwoody Mills, Inc., Griffin, Ga.

The textile educators on the panel included Wallace D. Trevillian and J. Lundberg of Clemson, R. K. Flegge of Georgia Tech, David W. Cheney of North Carolina State and E. Hank Johnson of the South Carolina Department of Education.
