

The Dicksons Are Shown As They Try Out A New Number.

Zeb And Mamie Dickson Publish First Album

Zeb and Mamie Dickson recently published their first record, a Christmas album, under the Carolina label.

Mrs. Dickson, the former Mamie Link, is a cost clerk in the Draper Sheet Mill Accounting Department and her husband teaches remedial mathematics in the Eden City Schools. Music has long been a common bond between the two of them. Their first meeting, in fact, was at rehearsals for a production of *The Messiah*.

The first side of their record is an unrehearsed jamboree (entitled *Carolina Jamboree*) first taped in 1962 and remarkable for its spontaneous dialogue and laughter. It features Mr. Dickson and his fiddle and the "Carolina Singers," accompanied by Mrs. Dickson at the piano.

The second side is a collection of melancholy songs in the Blue Grass tradition sung by Mr. Dickson. Both words and music were written by him and the arrangements were done by his wife.

John Steven Bare

John Steven Bare is the two-year-old son of Mr. and Mrs. Creig Bare. Mr. Bare is a shift foreman in the Karastan Dye Department and Mrs. Bare (Linda) is employed as a personnel data control clerk in the Industrial Relations Department at

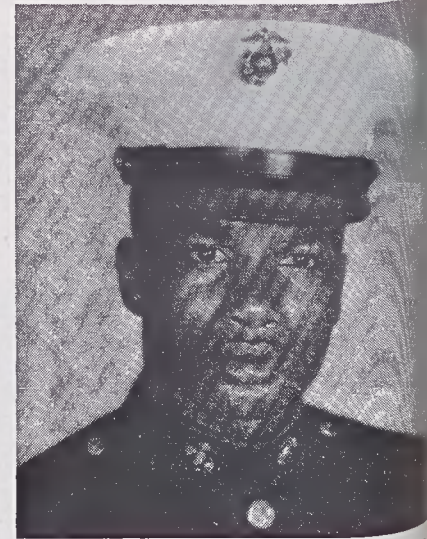

the General Offices, Eden.

Card Of Thanks

We wish to express our deepest appreciation for the thoughtfulness and kindness shown us during the illness and death of our loved one, Bessie McCullough.

Try This Safety Quiz

Almost everybody likes to take a quiz in order to test his knowledge and to see how he compares with others. So take the quiz below and see how you stack up with being safe. Most of us think we are "for" safety but safety experts warn that many are deceiving themselves.

Answer each question with "yes", "no", or "sometimes" and keep track of your answers. You can obtain your score from the information at the bottom of the box. Here's the quiz:

1. Do you think some safety precautions are a waste of time?
2. Do you ever take "slight risks" when a job becomes irksome?
3. When a safety precaution isn't clear, do you dislike taking the time to ask questions?
4. Do you take short cuts (going against safety rules) because you think you can avoid the dangers?
5. Are you a practical joker?
6. Do you allow personal matters to interfere with the job at hand?
7. Do you try to repair unsafe conditions yourself, rather than call for expert help?
8. Do you ever disregard the use of gloves, safety glasses or other protective equipment when you should not?
9. Have you ever disregarded a "No Smoking" regulation?
10. Have you had a close call or an accident on the job in the last six months?

HOW TO SCORE — Use the following scale to score yourself: two points for each "no" answer, one point for each "sometimes", and nothing for a "yes" answer. To interpret your score:

. . . 20 to 17 points — You're safe, or fairly so. Keep up the good work and you should be o. k.

. . . 16 to 13 points — You're slipping and you may slip for good. Get with it. Your luck can't last.

. . . 12 points or under — It's a wonder you're alive and kicking. Correct your ways at once, or else . . . !
