## Karastan Dyeing Works 9 Years Without A Lost-Time Accident

The employees of the Dyeing Department at the Karastan Rug Mill have worked over nine years without a disabling accident. They have attained over one million man-hours since the last lost-time injury occurred April 25, 1963.

In recognition of the employees' outstanding record of safe work, special treats were served in the canteen on all three shifts. All of the employees participated in a drawing for a six-pound "safety cake" which was won by Ernest Hairston, second shift.

In a message to Karastan employees, John R. Mauney, division vice president, and John G. Cunningham, plant manager, commended the Dyeing Department employees on their fine safe-

ty performance.

"This outstanding record has been accomplished by all employees participating in an active program to prevent accidents," the message said.

"All employees at Karastan recognize this as being an excellent safety record. We join together in congratulating employees of the Dyeing Department for having worked over nine years without a lost-time injury.

"As we congratulate the employees of the Dyeing Department on their fine safety record, may we all pledge to practice safe work habits and have no lost-time injuries at Karastan in 1973."

### Card Of Thanks

I would like to thank Dr. Victor Cresenzo and the staff at Annie Penn Memorial Hospital in Reidsville for their interest and care shown me while I was a patient there. To all my friends and neighbors for all the many cards, gifts, visits and prayers, again I say, thanks. They meant so much to me.

May God bless each of you.
