

## Blanket Warehouse Employees Enjoy Barbecue

Employees at the Blanket Warehouse enjoyed a safety barbecue on Wednesday, January 24.

The employees achieved 4,045 hours per employee without a lost-time accident through the month of November, 1972. They had worked a total of 379,229 hours since the last disabling injury which occurred on July 27, 1971.

Under the terms of the Fieldcrest Safety Program, employees in all mills are entitled to a safety barbecue when they have worked an average of 2,000 hours per employee without a lost-time accident.

Blanket Warehouse employees are continuing their fine safety record to date.

### Grant Requests Must Be Received In Advance

Requests for Fieldcrest Foundation educational grants must be received by the grant committee at least a month and a half prior to the date a course or program is to begin.

This cutoff period has been established by the grant committee in order to more effectively evaluate requests.

For example, if a course is to begin in January, the application for a grant must be made by November 15 in order to be processed by the educational grant committee.

Children of Fieldcrest employees who are planning to apply for an educational grant are urged to apply as far in advance as possible.
