Battle Speaks At Luncheon

(From Page One) Fieldcrest's success," Mr. Battle said.

R. A. Harris, executive vice president of Fieldcrest Mills, Inc., and a trustee of the Fieldcrest Foundation, presided and called on R. F. Bell, personnel manager at the North Carolina Finishing Company division, for the invocation.

Mr. Harris expressed his pride

in the accomplishments of the recipients and said he was "glad the Foundation can help you in getting an education."

He recognized other trustees of the Foundation as follows: Mr. Battle, D. A. Purcell, A. L. Jackson, K. W. Fraser Jr., and A. G. Singleton. The latter three were unable to attend.

Mr. Harris next recognized the Scholarship and Grant Com-

mittee composed of Dr. William McGehee, Dr. L. H. Hance, T. W. Graves, Jr., and M. B. Franklin. W. Clyde Pressley, Eden Schools superintendent, a member of the Scholarship Committee, was unable to be present.

Also recognized were other officers of the Company who attended the luncheon, L. L. Mann, assistant treasurer, and J. E. Williams, Jr., controller.

117 Receive Aid From Foundation

(From Page One) colleges or building funds outside the plant communities. Most of the Foundation contributions are being made in the communities where they will be of direct benefit to employees and their families.

The Foundation since its beginning has given 83 Fieldcrest Scholarships each currently worth \$4,000 over the four years of college. At present 36 sons and daughters of employees are enrolled in college with Fieldcrest Scholarships.

For the 1973-74 school year, the Foundation gave 51 new grants-in-aid to make a total of 81 grants that have been given since that new program was started in April, 1972. The grants are worth upward to \$1,000 a year.

The grants-in-aid are distinct from the Fieldcrest Scholarships in that the grants are primarily for aiding employees' children in line with their financial need. The Fieldcrest Scholarships are based on academic achievement as well as need.

The grant-in-aid program recognizes that many individuals may more profitably attend technical institutes or take trade courses than attend a four-year college. It is designed to aid employees' children who wish to attend technical schools or take technical courses such as mechanics, secretarial work or paramedical courses (nursing, medical technicians, etc.)
