

## Dickerson Facing Burlington Champ

### Bulletin

At Mill Whistle press time on Thursday, the results of the doff-off between Fieldcrest's Phillip Dickerson and Burlington's Monnie Wilkie were still not known.

The final winner will not be determined until September 13 when Mr. Wilkie comes to Eden to compete against Mr. Dickerson on his home grounds at the Bedspread Mill.

The national rules require each contest to be a home-and-away series with the total time for six frames determining the winner in this race-against-the-clock tournament.

Making the trip to Caroleen with Mr. Dickerson were Cleo Smith, training coordinator at the Bedspread Mill; Wayne French of the Draper Industrial Engineering Department, who was the official timer; and Otis Marlowe, editor of The Mill Whistle, who handled arrangements for the "Superdoffer" competition at Fieldcrest.

Fieldcrest drew a bye in the first round of the eliminations and Mr. Dickerson did not have to compete. Meanwhile, Mr. Wilkie defeated Richard White of Spartan Mills in Spartanburg, S. C. in the first round.

The winner of the Fieldcrest-Burlington competition will meet Earl Pearson, the champion of Highland Cotton Mills in High Point. Mr. Pearson previously won over Roland Chesney of Textiles, Inc., in Gastonia.

Mr. Dickerson became Fieldcrest's "Superdoffer" by defeating Rudolph Dalton of the Blanket Greige Mill. Mr. Dalton

## Technical Center Work Progressing On Schedule

Construction of the new Fieldcrest Technical Center, which was begun the last week in May, is progressing according to schedule.

Concrete has been poured for the lower level up to the first floor level, and 98 percent of the lower level columns have been constructed of concrete with reinforced steel inside.

The plumbing has been roughed in for the lower level and all drain lines, sewer lines and water mains have been run. The parking lot has been curbed, guttered, stoned and seal coated. Subcontractors are expected

to begin pouring concrete for the upper level floor today (Monday).

The building is expected to be completed by the end of April, 1974.

The new technical facility, estimated to cost about one-and-a-half million dollars, is being constructed on a 12-acre tract on the corner of Pierce Street and Stadium Drive, adjacent to the

## Mizell Will Head Eden UF Campaign

Howard W. Mizell has been named general chairman of the Eden United Fund campaign to be conducted later this fall on behalf of the 11 health, welfare, recreational and character-building youth services supported by the fund.

Robert L. Moore, director of employee relations at Fieldcrest who is president of the Eden United Fund, announced the appointment of the campaign chairman. Mr. Moore said the dates for the campaign and the financial goal will be announced

soon following a meeting of the budget and admissions committee.

In commenting on the appointment of the campaign chairman, Mr. Moore said:

"We feel fortunate in obtaining a man of Mr. Mizell's abilities for this key position. He is well known in the business community, has plenty of initiative and is a good organizer. I am confident he will do a fine job."
