Ask IRS

Your Tax Questions

Q. I will not earn enough this year to be required to file a tax return, and I have had no taxes withheld. I am told that I should file a return anyway because I may be eligible for a rebate from the government. Is this true?

A. Yes. This year, some taxpayers with earned income (wages and salaries minus any sick pay exclusions, plus tips and self-employment earnings) below \$8,000 may be eligible for a tax credit from the government. If your credit is more than the tax you owe, or if you owe no tax, the tax credit will be sent to you. For this reason, it may be advantageous to file a return this year.

To be eligible for the earned income credit, you must maintain for an entire year a household which includes at least one dependent child under 19 years old (or a student), and have a taxable year that represents twelve full months.

The credit is 10 percent of earned income if you make \$4,000 or less. That's maximum credit of \$400. If you earn over \$4,000, this maximum credit is reduced by 10 percent of the amount over \$4,000.

For example, if you earned \$4,500, you must subtract \$50, that's 10 percent of the extra \$500, from the \$400 maximum earned income credit. When your income reaches \$8,000, you no longer receive any credit.

Honored By 4-H Group

Robert Lee Stroud, an employee at the Alexander Sheeting Mill, was recently named Rutherford County 4-H leader of the year and was also the recipient of a special award at the annual 4-H Achievement program held at Ruth School. The annual award is given to an outstanding 4-H leader in recognition of outstanding contributions to 4-H work.

Mr. Stroud organized the Hopeview 4-H Club in July, 1974, and has recruited 31 boys and girls to participate in the program. Both he and the club members have been active in county events and he has served on several committees.
