CHOCTAW

"Who's that coming down the field
 Good old Choctaw players!"
 That is the way our song begins,
 and it ends with a victory. We're
 glad to welcome in all the new
 girls. We feel that we have some-
 thing to offer them, and we know
 that they have plenty to offer us.
 Come on out with us and play for
 the glory of old Montreat and put
 the best tribe in school where it
 belongs--at the head of things.
 Don't fail us, Choctaws! We're
 out to win!

EDITORIAL

Now that everyone has been duly welcomed and everybody knows everybody else, it is time for the Dialette to extend the heartiest greeting of all. To all the new ones with us we say, "Welcome! It's loads of fun knowing you and we're going to make you love our Alma Mater just as we have learned to love it." We are exceptionally happy to welcome our new faculty members and we sincerely hope you will enjoy knowing us as we have enjoyed knowing you these first few weeks. To the new girls we give you the best we have--a true friendship that we hope may grow and grow throughout the year. We have already learned to love you, and we are planning bigger and better things with the help we know you are capable of giving. It is needless to say how glad we are to have our old faculty members and girls back with us. We just could not do without one of you and we hope this year may be even better than our former ones together. However, it is to our new friends that we dedicate the first issue of the DIALETTÉ.

CHEROKEE

Who really brought home the bacon last year? Who won in everything except baseball, thus proving itself to be the very best tribe of all? Of course you know! It is the Cherokee tribe. Big things were accomplished last year, but with all the help we are going to get from our new tribe members, we are expecting to go over the top in a great big way. Come on, you other tribes. You have stiff competition so let's fight it out and end up the very best of sports and friends. Are you with us? We challenge you.

MOHAWK

Greetings, Mohawks! The very best tribe in school is glad to welcome the very best girls in school into its membership. We had a big year last year, and we are planning even bigger things in the future. Our aim is to develop the best of sportsmanship among our girls and to give athletics the place it deserves in our school. On to victory and who's going to be there when the laurels are being distributed? The Mohawks!
