

THE DIALETTE

MONTREAT COLLEGE, MONTREAT, N. C.

STUDENT ACTIVITY FEE DAY TO BE OBSERVED, FEB. 2, 1939

A CAMPAIGN!

Excitement! Why is that girl sitting there in Gaither Hall, and why are all those girls paying her money? Two dollars, is it? Oh, yes, this is Thursday, Student Activity Fee Day. What are those girls wearing on their shoulders as proudly as a corsage? An acknowledgment that they've paid their fee? Fine. That entitles them to all the copies of the Dialette and the Sun Dial, a vivid recording of their days in Montreat.

Write home today for two dollars, pay it to the member of the Sun Dial Staff at the table near the entrance to the Chapel --any time Thursday.

Join the ranks!

WHO'S WHO

Vivian Husterman, one of those girls from way off, (St. Louis, Missouri, to be exact) heard about Montreat through her mother who came here in the summer for a conference. About the first thing she mentioned, when "Yours Truly" interviewed her, was that brother of hers, who is graduating from High School this year. Family pride, eh! She wants to be a dietitian, and we're sure, with Miss Miles' able instruction, she'll have a big send off for Washington "U" where she hopes to go later. Vivian, "Bib" to her friends, took a summer trip to Colorado recently and visited the Grand Canyon. We're glad she didn't fall in, for look what a good basketball captain we would have missed!

Leila Gibert came to us from Rodman, S. C., near Rock Hill. Her ancestors came over from France "way back yonder". (You've noticed that decidedly French twinkle in her eye, haven't you?) After finishing here she plans to go to Winthrop. At present she likes reading as a hobby, and History is her favorite subject. (Miss Hoyt, please take notice!)

Mary "Ethie" Mason it seems, has lead a very normal life --- school and camp taking up about all her time. Her father is a doctor in Roanoke, Va. By far the most outstanding thing about Mary "Ethie" is her entire devotion to "McClellan". Whether it is the ten cent store or a "mysterious him", we're not quite sure. (That's something for Snookie to look up.) However, all her work and future plans are to help "McClellan". She's majoring in Home Economics, so we gather she's planning now to be a good wife to "McClellan".

Frances Mitchell comes from North Carolina's own hills, being born and reared in Asheville. The most outstanding incident of her childhood was being run over. As the driver was a lawyer and knew his business, she got nothing from it except a hurt foot. For a hobby and a pleasant pastime, Frances draws, but for her profession, she prefers stenographic work. And by the way, if you see any flies or fleas about, save them for Elmer, her pet lizard, who at present is very hungry, I understand.
