

CAMPUS CHATTER

Hope you children had a wonderful holiday and that just lots of exciting things happened to you.

Have you girls seen the rocks that are shining on these lucky girls' fingers? My! My! it must be wonderful to be loved by someone.

Some girls must have had an exciting time because--why did Miss Hassie Swift's face turn so red when she read that letter (from guess who) the other day? Why does Hope Wiseman want a lot of little brown boys running around? Could the extra week of Vivian Musterman's vacation be because of Bob?

Miss Cooper certainly was "Country"-fied Sunday.

Mary Marshall, did your car really break down on the mountain New Year's Eve?

Margaret Bradshaw got a letter (with a proposal in it) this morning from her Honolulu friend.

It seems that the lines were kept busy last night between Lookout and Swananoa.

Jacque Hubbard certainly is flashing a pretty bracelet and necklace around. Could it be Elmore?

My, but Anne Leppard was glad to get back a letter she wrote to Charlie. Certainly would like to know what was in it.

You know the song "Oh Johnnie"? Well, it seems that Snookie Corpening has to sing it every night before she goes to sleep. Maybe she sings it to Cadet Johnnie. Course I wouldn't know.

What has Shirley Conley got that makes everybody flirt with her on the train? "Good-by, Shirley".

I feel for you, Elizabeth Oglesby. I don't know what is is to be homesick for Harley, but-----

Say, did you hear what happened to Mary Hodgkin New Year's Eve? Why Mary--I'm surprised!

It seems that Annie Laurie Shipman had quite a time coming back. She met a boy that had been to seven universities.

Sue and Catherine also had a time. A private railroad car, seven boys, a radio and two girls make a complete picture.

Nothing like getting a washboard for Christmas is it, Margaret Richards?

I guess you have heard about "Pluty" Fraser's operation. Well, the poor child didn't find out until the day she left

KER*CHOO

Mary had a little cold. She caught it in the head, and everywhere that Mary went, that cold was sure to spread.

It followed her to school one day--there should have been a rule, for it made the children cough and sneeze to have that cold in school.

The teacher tried to drive it out, for it almost turned to "flu". And all the pupils in the room, and the teacher had it, too----Ain't we all!!!!

Answers to examination on page 2.

3,1,1,2--You are close kin to a super-human (and I doubt if you live in Montreat)

1,3,2,1--Don't worry over being an extremist. You're in the majority!

2,2,3,3--Quarantine at once! Bordering on total collapse!

4,4,4,4--Lady, you're South of the Border!

(Continued)

that the good-looking doctor was married.

The question with Barringer--Is it Dick or Earl? Oh, by the way, Barringer, why were you and five of your friends so pale and sick Saturday night?

Wonder what Velma Ragland's big Christmas secret is? She certainly has succeeded in arousing everybody's curiosity.

Girls, we are about to be back to the old Saturday night bath. Better make use of the snow.

We keep fooling ourselves long after we have ceased to fool others.

The only way to be rid of the worry about the things we have not done is to do them.

Always practice in everything you do. You never cheat the teacher but you cheat your self.
